

Remington Arms Company, Inc.

CC: J. H. Chisnall
T. Goodreau

TO: W. H. COLEMAN
H. C. MUNSON
V. M. ROMANO
A. W. WHEATON
R. JACKSON

FROM: J. M. BUNTING *Jm*

Rec'd 4/26/41

SPECIFICATIONS: MODEL 700 LSM (LAMINATE STOCK MAGAZINE BOX)

Specifications of this rifle remain the same except for the addition of a flush mounted fully detachable magazine box. Caliber additions recommended for consideration are the 6mm Remington and 280 Remington. Current thought is that the 6mm Remington would replace the 243 presently offered for a total of 5 calibers. They are: 6mm Remington, 270 Win., 280 Rem., 30-06 and 7mm Remington Mag.

Rigor should be developed toward reducing year end inventories so as to neutralize the effect of obsolete product at year's end.
