REMINGTON ARMS - FINANCING

Over the past months we have been examining ways to reduce Remington's interest costs on its short-term bank borrowings. An immediate way, which is financially attractive, is a master note\* arrangement with E. I. du Pont de Nemours and Company (Du Pont), by which Remington will borrow money, as needed, from Du Pont at rates which over the last year or two have averaged about 1% below prime. The rate charged Remington by Du Pont will be determined by the rate Du Pont pays on its master notes with banks, or on the basis of rates paid on other high quality master notes. (The rate is geared to the highest rate between 30 and 180 days for Du Pont commercial paper or General Motors Acceptance Corporation commercial paper, if Du Pont is not issuing paper.)

In addition since Remington will no longer be borrowing from the banks, the compensating balances we maintain equal to 10% of our outstanding borrowings will no longer be necessary. This will result in additional interest savings to Remington. Du Pont will continue to support our open credit lines with the New York banks.

We plan to inform the banks and begin borrowings under the master note arrangement as soon as possible, assuming the lending arrangement, approved by Du Pont's Executive Committee (May 12), is approved by its Finance Committee (May 17). Since there is no Remington Board meeting in May, we will submit a full report at the June Board meeting and request you to approve enabling resolutions. We anticipate that as a result of the proposed arrangement our yearly interest costs will be reduced approximately \$700M-\$800M per year, with a net after-tax savings in interest cost of between \$350M-\$400M per year.

If the Board is disposed not to approve our actions, we can reinstate short-term bank borrowings without any penalties. We will recommend that the Du Pont members of the Board of Directors abstain from voting on this proposal.

Attached for your information is a copy of Du Pont's report to its Executive Committee.

REMINGTON ARMS - FINANCING

Remington's cash needs are highly seasonal because of the dating terms offered customers. The bulk of its annual business is booked by March 15, and shipped in the first nine months of the year, with invoice terms that permit delay of payment until November 15. Even though discounts are offered for earlier payment that translate into an effective interest rate of 10-12% per annum, most customers take advantage of such delayed payment terms. This then translates into a large buildup in Remington's working capital throughout the year, with liquidation occurring between November 15 and year-end. For example, Remington's #2-1976 Forecast reflects the following buildup and decline in net working capital during the year:

December 31, 1975 (Actual)	\$ 67MM
March 31, 1976 (Actual)	107MM
June 30, 1976	129MM
September 30, 1976	137MM
December 31, 1976	68MM

In recent years the working capital accumulation during the course of the year has been financed by bank borrowings from New York City and Bridgeport banks. Such borrowings totaled \$46MM at March 31, 1976, and may reach a peak of as much as \$85MM in the August-November period. At December 31, 1976, Remington's borrowings are forecast to be down to about \$7MM. Borrowings are at the banks'

prime rate (currently 6-1/2% to 6-3/4% per annum). After taking into consideration the need to maintain compensating balances equal to 10% of outstanding borrowings\*, the effective cost to Remington is about 7-1/2%.

This is in contrast to the cost to Du Pont of short-term borrowings via commercial paper and master notes, which during the first quarter of 1976 averaged about 5% and 5-1/2%, respectively.

It is estimated that net after-tax savings in interest cost of between \$350M-\$400M per year for Remington (\$325M-\$375M for consolidated Du Pont) could result if arrangements could be made to secure Remington's borrowing requirements from the parent Company rather than through bank borrowings.

After considering several alternatives, we propose to accomplish this as follows:

- (a) Du Pont would lend the required funds to Remington under a "master note" arrangement similar to that used between Du Pont and the trust departments of banks, terminable upon notice by either party. The interest rate to Remington each day would be essentially equivalent to that applicable to Du Pont or other high-quality master notes.
- (b) Du Pont would obtain the required funds through the sale of its marketable securities or from its normal commercial paper operations. The cost of such funds to Du Pont, comprised of lost opportunity costs on marketable securities or interest expense on commercial paper, as the case may be, would probably average up to 1/2 percentage point below the master note rate being charged to Remington. This difference is reflected in the savings for consolidated Du Pont cited above.

We and the General Counsel are satisfied that this arrangement between Remington and Du Pont meets "arms-length" standards and satisfies all legal and tax tests.

This arrangement will not increase the total of consolidated short-term borrowings in any way. It either reduces consolidated

\*The 10% compensating balances necessary to support Remington's open credit lines with the New York banks are covered by Du Pont's deposits with those banks, which deposits would not decrease even if not used to support Remington's lines.

borrowings if the loan is made by selling marketable securities or shifts outside short-term borrowings from the "majority-owned subsidiary" category to the "parent Company" category if commercial paper is issued. Up until now, borrowings by majority-owned subsidiaries (including Remington) have been excluded in computing the senior capital ratio. In order not to distort this ratio, we would propose to continue to exclude from the ratio any borrowings by the parent Company on behalf of Remington.\*

The effort on the part of Remington's staff to operate under this arrangement will not be any greater than currently required to arrange bank borrowings. The additional cash requirements for Du Pont can easily be handled by the present Du Pont staff engaged in money market operations for our own account. Any incidental out-of-pocket costs incurred by Du Pont are covered by the interest rate differential between the charge to Remington and cost of money to Du Pont.

While the interest cost to Remington under this "master note" arrangement is perhaps 10-15 basis points higher than they might have to pay if they were to market their own paper through a dealer, this is more than offset by Remington's avoiding the need to add experienced financial personnel to its staff to handle the operation. With the highly seasonal nature of Remington's borrowing requirements, this staff would not be fully occupied for this purpose in the "off-season" periods of the year.

P. H. Burdett, President and General Manager, endorses this proposal as a practical means of achieving a significant savings for Remington.

The authority granted by the Finance Committee on February 15, 1971, to the Treasurer to make loans to less than

\*If these borrowings were included in the computation, at the peak of Remington's requirements (\$85MM) the effect on the senior capital ratio would be to increase it by one percentage point.

wholly-owned subsidiaries (see Exhibit A) was conditioned on the understanding that:

" . . . Du Pont loans to . . . less than wholly-owned affiliated companies will be limited to Du Pont's percentage of equity ownership, and predicated on other shareholders making loans . . . in proportion to their pro rata ownership in each case . . . ."

Involvement of the minority interest in this operation is obviously not practical.

If your Committee concurs with the proposal outlined above, the following resolution, approved by Legal Department (R. W. Arrington), is recommended for adoption, subject to approval of the Finance Committee. The dollar limit included in the resolution provides leeway in case Remington's cash requirements exceed current expectations. Legal Department recommends that the Remington Directors on the Committee abstain from voting on this proposal and that this abstention be recorded in the Minutes.

FROM: DIRECTOR OF FINANCE

REMINGTON ARMS - FINANCING

This report updates our report dated May 14, 1976, and requests adoption of resolutions enabling us to continue borrowing from E. I. Du Pont de Nemours and Company (Du Pont). The May 14 report informed the Board that we would begin borrowing under a master note arrangement with Du Pont upon approval of the arrangement by the Du Pont Finance Committee, which occurred on May 17.

On May 20 we borrowed \$45,000M from Du Pont at an annual interest rate of 5.79%. Loans on which we were paying an effective annual interest rate\* of 7.43% to four New York banks and two Bridgeport banks were paid off in the total amount of \$47,900M. Also, the 10% compensating balance we maintained at each of these banks to support borrowings has been eliminated. We continue to borrow from Du Pont, and at June 1 our borrowings were \$44,300M, at an annual interest rate of 6.05%. Our effective annual interest rate at the banks would have been 7.7%.

The New York banks were informed that we would maintain our credit lines with them, and that Du Pont's support of the credit lines would continue. But for this, we would consider reducing or discontinuing our credit lines with the New York banks. (We understand Du Pont's deposits with these banks would not decrease even if not used to support Remington's lines.) The Remington-supported credit lines of \$2,500M with each of the two Bridgeport banks were discontinued.

Attached as Exhibit I is a draft of the proposed form of master note agreement which Remington will execute with Du Pont. The form of the agreement is substantially the same as one Du Pont has with Morgan Guaranty Trust Company. The dollar limit included in the note (\$125,000M) provides leeway in case Remington's cash requirements exceed current expectations. The interest rate is geared to the 30-to-180-day commercial paper rate of Du Pont, or General Motors Acceptance Corporation, if Du Pont is not issuing such paper.

As stated in our May 14 report, we anticipate that as a result of the proposed arrangement our yearly interest costs will be reduced approximately \$700-\$800M per year, with a net after-tax savings in interest cost of between \$350-\$400M per year. These savings are on the assumption that there is a 1% spread between the prime rate and the rate to be paid Du Pont. Over the past two

\*Prime times 110% to adjust for compensating balances equal to 10% of borrowings.

years the Du Pont rate has averaged about 1% below prime. For 1976 we estimate our net interest costs will be reduced approximately \$200M (3¢ per common share).

If the Board approves of our continuing to borrow from Du Pont, we recommend adoption of the following resolution. The General Counsel recommends that the Du Pont members of the Board abstain from voting on this proposal and that this abstention be recorded in the Minutes.

RESOLVED, that the Director of Finance, or the Treasurer, is authorized to borrow funds from time to time from E. I. Du Pont de Nemours and Company, in accordance with the arrangement described in the reports from the Director of Finance dated May 14, 1976 and June 3, 1976, entitled "Remington Arms - Financing", provided however, that such borrowings do not exceed \$125,000,000 at any given time;

RESOLVED FURTHER, that the Director of Finance and the Treasurer, each hereby is authorized to delegate to other employees authority to execute such borrowings from E. I. du Pont de Nemours and Company;

RESOLVED FURTHER, that the proceeds of any borrowings hereunder shall be immediately credited to a bank account of this Company.

MASTER NOTE AGREEMENT

THIS AGREEMENT, effective May 20, 1976, is between Remington Arms Company, Inc., a Delaware corporation with principal offices at 939 Barnum Avenue, Bridgeport, Connecticut (hereinafter called Remington), and E. I. du Pont de Nemours and Company with principal offices at 10th & Market Streets, Wilmington, Delaware (hereinafter called Du Pont).

WITNESSETH:

In consideration of the mutual promises herein contained, Du Pont shall lend to Remington and Remington shall borrow from Du Pont for Remington's general business purposes certain sums, in increments of not less than one hundred thousand dollars (\$100,000), not to exceed one hundred twenty-five million dollars (\$125,000,000), on the terms hereinafter set forth.

I. Borrowing Procedure

When Remington wishes to borrow from Du Pont, Remington shall give notice to Du Pont by telephone on the banking day on which Remington wishes to borrow, of the amount of the desired loan. If Du Pont shall elect to lend the amount desired or any portion thereof, Du Pont shall instruct Morgan Guaranty Trust Company of New York, New York (hereinafter called Morgan), to credit the amount of the loan to Remington's account with Morgan "Remington Arms Company, Inc." (051 57 508) (hereinafter referred to as Remington's Account) on the banking day on which the loan is to be made.

II. Interest on Loans

While each loan hereunder is outstanding, it shall bear interest at the highest annual simple interest equivalent of the discount rate payable concurrently from time to time by Du Pont on its 30- to 180-day commercial paper, or if Du Pont is not issuing this commercial paper, at the highest annual simple interest equivalent of the discount rate payable concurrently from time to time by General Motors Acceptance Corporation (GMAC) on its 30- to 180-day commercial paper. Du Pont shall give Remington prompt notice by telephone (which notice shall be confirmed in writing) of any change in Du Pont's or GMAC's discount rate, and each such change shall be effective with respect to all loans at the time outstanding hereunder on the date such change becomes effective with respect to Du Pont's or GMAC's commercial paper. For purposes of computing interest, a loan shall be deemed to be outstanding on the date it is made but not on the date it is repaid. On the first banking day after the end of each month, Remington shall pay to Du Pont an amount equal to the interest accrued during such month. All interest payments shall be made by authorizing Morgan to credit Du Pont's account with Morgan "E. I. du Pont de Nemours and Company" (747 00 003) (hereinafter referred to as Du Pont's Account).

### III. Repayment of Loans

Du Pont shall have the right at any time and from time to time to demand repayment of all or any part of the principal amount of the loan or loans outstanding hereunder. Such demand shall be made by telephone notice to Remington on the banking day on which the repayment is to be made. When repayment shall be due in accordance with the terms of any promissory note issued hereunder or pursuant to telephone notice given as aforesaid, Remington shall make the repayment by authorizing Morgan to credit Du Pont's Account with Morgan for the amount of the repayment on the banking day on which the repayment is due.

At any time and from time to time Remington shall have the right to repay, without penalty, all or any part of the principal amount of the loan or loans outstanding hereunder. When Remington shall elect to make such a repayment, Remington shall give notice to Du Pont of its election by telephone on the banking day on which the repayment shall be made. Remington shall make the repayment by authorizing Morgan to credit Du Pont's Account with Morgan for the amount of the repayment on the banking day specified by Remington in its notice to Du Pont.

### IV. Confirmation of Loans and Repayments

Whenever Du Pont shall make any loan to Remington hereunder, or whenever Remington shall make any repayment of principal to Du Pont, Remington shall send promptly to Du Pont a written confirmation of each such transaction, dated the date of such transaction, and substantially in the form of Exhibit A attached hereto with appropriate insertions in the blank spaces thereon.

### V. Promissory Note

Upon the making of the initial loan hereunder, Remington shall issue and deliver to Du Pont its promissory note in the form attached hereto as Exhibit B. Such note shall be in the amount of such initial loan. Each time that an additional loan is made or any portion of the principal amount outstanding is repaid Du Pont shall make an appropriate entry under the column entitled "Principal Amount Outstanding" on the Remington promissory note then held by Du Pont. Upon Du Pont's request, Remington shall issue and deliver to Du Pont, in exchange for the promissory note then held by Du Pont, a new promissory note, in the form attached hereto as Exhibit B, in a principal amount equal to the then outstanding principal amount of the note being surrendered by Du Pont in exchange.

### VI. Transfer of Note

Du Pont shall not sell, pledge, assign or otherwise transfer any promissory note held by it pursuant to this Agreement.

GENERAL INFORMATIONPROJECT NO. RI-1180 - ILION PLANTPRESENT FACILITIES AND TO WHAT EXTENT THEY ARE INADEQUATE

Firearms manufacturing capacity at the Ilion Plant has been expanded regularly over the past ten years in response to market growth and increasing demand for Remington products. The expansions have been in shotgun and center fire rifle capacity where our unit sales have more than doubled during this period. The market for rim fire rifles, however, has shown less growth and our rim fire rifle capacity is adequate to meet forecast levels of demand.

The latest major increase in firearms capacity was authorized in April, 1975, to provide capacity to meet anticipated 1976 demand for shotguns and center fire rifles on a 5-day, 3-shift basis supplemented by some 6-day operation. That project (RI-1150) provided no new building construction and all available floor space is now fully utilized.

Based upon present forecasts, our shotgun capacity is sufficient to meet 1979 requirements with additional 6-day operations. However, total market demand for center fire rifles has shown a higher rate of growth than previously anticipated (averaging 7-8% per year) and is expected to continue its growth at about 6% per year through 1980. Unit sales of Remington center fire rifles during the past five years have increased at an average annual rate of 8.3%. Existing center fire rifle capacity is not sufficient to meet Marketing's forecast of 1979 requirements.

The tabulation below summarizes Remington's sales of center fire rifles and market position over the period 1971-1976 and the forecast for the period 1977-1981.

In the past few years, demand has exceeded our ability to ship, and all principal center fire models have had to be allocated to customers. Our center fire rifle line is a prime factor in the profitability of our firearms business in that it accounts for approximately 35% of firearms earnings. Additional capacity will provide volume needed to maintain market share, increase profitability, and protect our leadership in the center fire rifle market.

Our center fire rifle forecast for 1977 is 15% higher than anticipated at the time the previous capacity expansion project was authorized, and current schedules are being met with 7-day operations. Consequently, service to customers is being affected because of scheduling inflexibility and low finished product inventory. Plant labor effectiveness and equipment maintenance also are being affected adversely because of extensive overtime schedules.

The competitive situation differs within each of the four basic center fire rifle action types.

- o Bolt action rifles constitute approximately 40% of the center fire market with Remington holding about a 40% share. Demand for Remington models has not been fully met in recent years. Sturm Ruger has been able to increase market share of their Model 77 to 15-20% in the past four years. Winchester's Model 70 also has benefited to some extent by the limited availability of our Model 700.
- o Autoloading rifles are about 18% of the market. Our Model 742 is dominant in this segment of the market with approximately 56% of total unit sales. Growth in this segment is heavily dependent upon our capacity to produce. Browning's share has declined from 16% in 1974 to 8% in 1976 due to sharply higher

prices on their imported models. Ruger is an emerging competitor with their new Mini-14 autoloader attaining an estimated 12% share in 1976. Winchester dropped out of this segment several years ago, but should they build a previously announced new facility, they probably would introduce an autoloader at that time.

- o Pump action rifles have been a small (5-7%) segment of the center fire rifle market clearly dominated by our Model 760 with a 75% market share. Savage recently chambered their Model 170 in 35 Remington caliber which probably will increase their sales.
- o The balance of the center fire rifle market, approximately 36%, consists of lever action rifles and a few miscellaneous types. Remington does not compete in this segment which is dominated by Winchester. Lever action rifles have given up ground to bolt action types, having lost almost a 10% share of the center fire market over the past ten years.

In the total market for center fire rifles of all types, Winchester is our closest competitor with an estimated 22% market share, compared to Remington's 29% share.

DESCRIPTION OF PROPOSED WORK

It is proposed to expand Ilion Plant facilities to provide sufficient center fire rifle capacity to meet 1979 volume projections on a 5-day, 3-shift basis with some 6-day operations. Center fire rifle capacity will be increased about 22%.

A total of 50 additional production machines are required to provide the proposed capacity. Thirty-seven machines will be purchased

(Subdivision 3)

and 13 excess Model 3200 machines will be utilized. Standard and Remington special machines are required to expand capacity of Model 742-760 breech bolt, bolt carrier, action tube, receiver, action bar sleeve, and Model 700 bolt head groups. Two short stock presses are required for the wood manufacturing area in addition to a new sawdust and wood chip conveying system incorporating heat recovery capabilities.

New building construction is proposed in order to accommodate the equipment and service areas needed to meet the 1979 sales forecast. A total of 58,200 square feet of added manufacturing space is planned. In order to use the space most effectively, construction will be in three separate segments, thus minimizing overall rearrangement and attaining maximum improvement in operating cost through reduced materials handling and increased labor effectiveness.

- o 28,000 square feet of new ground floor general manufacturing space, constructed in the plant courtyard and attached to Building 60 (see Plot Plan - Exhibit I). This will permit expansion and "straight-lining" of center fire barrel manufacturing operations. This building will be designed to support three additional floors when needed.
- o 13,200 square feet of new ground floor general manufacturing space, designed for future addition of a second floor, attached to the west side of Building 76. This will provide space for expansion of barrel and receiver blank manufacturing, and for additional steel storage.
- o A new 17,000 square foot two-story structure, to house the administrative offices and the Ilion Museum, will be attached to the office-warehouse Building 52 purchased in 1972. This will vacate 17,000 square feet of prime manufacturing space on

(Subdivision 3)  
Page 4

PROJECT NO. RI-1180 - ILION PLANT

DESCRIPTION OF PROPOSED WORK (Cont'd.)

the first and second floors of Building 46. This arrangement is the most cost-effective for the required expansion of vent-rib barrel manufacturing on the first floor and will permit expansion into the second floor of relatively heavy operations which heretofore have been excluded because of noise transmission into the offices below. The architect's rendering of this new building is shown in Exhibit II.

Dismantling and rearranging funds are provided for relocation of 77 production machines into new space. Additional warehouse space will be made available through the rearrangement process. Funds are also included for dismantling the offices in the first floor of Building 46, dismantling the obsolete sawdust exhaust system, and site work required prior to new construction.

REMARKS

Data in Subdivision 5 represent production operations required to meet the 1979 sales forecast (first year of operation). Results shown are considered typical of subsequent years. Meeting this forecast will require 6-day operations on shotguns and center fire rifles. "Present Operation" is based on forecasts of 1979 sales, prices, and costs. Incremental "Results from this Project" show increased sales of \$10,786,000 and net earnings of \$2,656,000 from an additional 77,000 center fire rifles, giving a net return of 21.9% on the additional investment.

Without this project, Remington's center fire rifle market share would be expected to drop about 1.5 percentage points per year.

(Subdivision 3)  
Page 5

REMINGTON ARMS COMPANY, INC.

GENERAL INFORMATIONPROJECT NO. RI-1180 - ILION PLANTREMARKS (Cont'd.)

Power, general, and service facilities are adequate to support the additional facilities provided by this project. Current forecasts for 1980 and beyond indicate that an additional facilities project should be submitted late in 1977. This further expansion will require expansion of the electrical power distribution system. The remainder will involve miscellaneous equipment for shotguns and center fire rifles to relieve "bottlenecks" and increase capacity. The total investment will probably be around \$2,000,000.

Capitalized facilities (\$78,871) which will be written off and disposed of include components of the wood area sawdust handling system, Building 46 air conditioners, and the fence in the center courtyard. After completion of this project, the ratio of depreciation reserve to permanent investment for the Ilion Plant is forecast to decrease from 71% to 64%.

All equipment will be installed in accordance with Remington and Du Pont standards, and will comply with Federal and State regulations. There will be no adverse effect on environmental quality as a result of this project.

PATENT SITUATION

Where practical, new machines will be purchased subject to the usual manufacturer's warranty against patent infringement.

MERGER PROPOSAL FROM DU PONT

On July 16, 1979, the Company received from the Du Pont Company an offer to acquire 100% ownership of Remington. Copies of the Du Pont letter transmitting this offer and my letter of acknowledgment of July 17, 1979, are set forth in Exhibits A and B, respectively. A copy of the Company's press release of July 17, 1979, announcing this development is set forth in Exhibit C.

On July 18, 1979, I appointed a committee of the three outside Remington directors to consider the merger proposal and report its findings to the full Board of Directors. This was reported to the stockholders on July 24, 1979 (see Exhibits D and E, respectively).

It is recommended that a resolution be adopted establishing the Merger Committee as a committee of the Board to accomplish these objectives, authorizing the Merger Committee to retain advisors at Company expense, providing for remuneration for services performed by members of the Committee, designating the members and appointing a Secretary of the Committee, ratifying and confirming the acts to date of the President and the members of the Committee as having been performed with the approval of the Board, and authorizing and directing Company officers to take appropriate action to implement the resolution.

The resolution set forth in Exhibit F, approved by Counsel, is submitted for your consideration.

PHILIP H. BURDETT

E. I. DU PONT DE NEMOURS &amp; COMPANY

WILMINGTON, DELAWARE 19898

CHAIRMAN OF THE BOARD

July 16, 1979

Mr. P. H. Burdett, President  
Remington Arms Company, Inc.  
Bridgeport, Connecticut 06602

Dear Mr. Burdett:

The Du Pont Company, owner of approximately 69.5% of the outstanding common stock of Remington Arms Company, Inc., and all but 47 shares of its preferred stock, has considered the desirability of acquiring 100% ownership of Remington. We have concluded that such course of action offers potential economic benefits to the stockholders of both companies, and hereby propose merger terms for consideration by the Remington Board of Directors.

An overriding consideration in the development of this proposal has been that our offer be fair to the Remington minority stockholders. We would not want to proceed with the merger unless it has the approval of the holders of a majority of the Remington shares who vote on the proposal, excluding the Du Pont holdings. Thus, our offer is subject to approval by such majority of the voting minority-owned shares.

Our proposal is a plan of merger whereby Du Pont common stock would be exchanged for the minority interest in Remington, believing this to be more beneficial to Remington stockholders than a cash offer. This form of transaction should (1) permit Remington stockholders to defer tax on any gain, as long as they hold the Du Pont stock received in exchange, and (2) permit their continuing equity interest in Remington through ownership of Du Pont stock. Because of the very small amount of preferred stock held by others, and in the interest of simplicity, such shares would be acquired for cash. After completion of the proposed transaction, Remington Arms Company would be a wholly-owned subsidiary of Du Pont.

We engaged Morgan Stanley & Co. to conduct a financial analysis of our proposal and to recommend an exchange ratio of Du Pont common stock for Remington common stock which would be fair to the stockholders of both companies. We also asked them to recommend a fair offer price for the preferred stock held by others.

EXHIBIT A

Based on Morgan Stanley's opinion, which we have carefully reviewed and consider fair and reasonable, we propose a statutory merger based on an exchange ratio of 0.52 share of Du Pont common stock for each share of Remington common stock, and payment of \$105 cash for each share of Remington 4-1/2% preferred stock.

I and other Du Pont representatives would be glad to proceed with discussions of this offer and implementation thereof at your convenience. Please call me if you have any immediate questions or comments.

Sincerely yours,

NOW, THEREFORE, in consideration of the premises and the mutual agreements, covenants and provisions herein contained, the parties hereto have agreed and do hereby agree to merge subject to the conditions hereinafter set forth, as follows:

1. *Merger; Certificate of Incorporation, By-Laws and Board of Directors; Effect of Merger*

1.1 *The Merger.* Upon the Effective Date of the Merger, as hereinafter defined, Remington shall be merged into NewRemCo, which shall be the Surviving Corporation and which shall continue its corporate existence under the name Remington Arms Company, Inc. and remain a Delaware corporation governed by the laws of the State of Delaware.

1.2 *Certificate of Incorporation, By-Laws and Board of Directors.* (a) On the Effective Date, the Certificate of Incorporation of NewRemCo, as the Surviving Corporation, shall be amended as follows:

Article One shall be deleted and in its place shall be inserted the following paragraph:

"The name of the corporation (hereinafter called the 'Company') is Remington Arms Company, Inc."

The Certificate of Incorporation of NewRemCo shall not be amended in any other respect by reason of the Merger, and the Certificate of Incorporation of NewRemCo as heretofore amended and as further amended hereby shall be the Certificate of Incorporation of the Surviving Corporation until any further amendment is made pursuant to the laws of the State of Delaware;

(b) The By-Laws of NewRemCo shall be the By-Laws of the Surviving Corporation and shall continue in force and effect, until duly altered, amended or repealed; and

1.3 *Effect of Merger.* Upon the Effective Date, the separate existence of Remington shall cease and the Surviving Corporation shall thereupon and thereafter possess all of the rights, privileges, powers and franchises as well of a public as of a private nature, and be subject to all the restrictions, disabilities and duties of each of the Constituent Corporations; and all and singular, the rights, privileges, powers and franchises of each of the Constituent Corporations, and all property, real, personal and mixed, and all debts due to any of the Constituent Corporations on whatever account, as well for stock subscriptions as all other things in action or belonging to each of the Constituent Corporations shall be vested in the Surviving Corporation; and all property, rights, privileges, powers and franchises, and all and every other interest shall be thereafter as effectually the property of the Surviving Corporation as they were of the Constituent Corporations and the title to any real estate, vested by deed or otherwise, under the laws of the State of Delaware, in either of the Constituent Corporations shall not revert or be in any way impaired by virtue of such Merger; but all rights of creditors and all liens upon any property of either of the Constituent Corporations shall be preserved unimpaired, and all debts, liabilities and duties of the Constituent Corporations shall thenceforth attach to the Surviving Corporation and may be enforced against it to the same extent as if said debts, liabilities and duties had been incurred or contracted by it.

## 2. *Status and Conversion of Securities*

The manner and basis of converting the issued and outstanding shares of capital stock of Remington and of cancelling certain capital stock of Remington shall be as follows:

(a) Each share of NewRemCo Common Stock issued and outstanding on the Effective Date shall remain unchanged and unaffected by the Merger.

(b) Each share of Remington Preferred Stock other than the Du Pont Preferred Holdings and those shares of Remington Preferred Stock held in treasury by Remington, issued and outstanding on the Effective Date, shall be converted into a right to receive an amount in cash equal to One Hundred and Five dollars (\$105). Such payment shall be made exclusive of any accumulated dividend.

(c) Each share of Remington Common Stock, other than the Du Pont Common Holdings and those shares of Remington Common Stock held in treasury by Remington, issued and outstanding on the Effective Date, shall be converted into shares of Common Stock, \$1.66 $\frac{2}{3}$  par value, of Du Pont ("Du Pont Common Stock"), as follows:

(i) Each share of Remington Common Stock will be exchanged for .55 share of Du Pont Common Stock, provided that during the 10 trading days preceding the day before the Remington stockholders' meeting scheduled for voting on the proposed Merger, the average closing price of Du Pont Common Stock on the New York Stock Exchange Composite Tape calculated to three decimal places without rounding ("Average Price") is not less than \$42 $\frac{1}{4}$  per share and no more than \$47.00 per share.

(ii) If the Average Price is less than \$42 $\frac{1}{4}$  per share, the exchange ratio shall be adjusted such that each share of Remington Common Stock will be exchanged for a fraction of a share of Du Pont Common Stock determined by dividing \$23.24 by the Average Price; provided, however, that in the event the Average Price is less than \$40.00, the exchange ratio shall be fixed at .581.

(iii) If the Average Price of Du Pont Common Stock is more than \$47.00 per share, the exchange ratio shall be adjusted such that each share of Remington Common Stock will be exchanged for a fraction of a share of Du Pont Common Stock determined by dividing \$25.85 by the Average Price; provided, however, that in the event the Average Price is more than \$49.71, the exchange ratio shall be fixed at .52.

Unless otherwise provided, all calculations pursuant to this subsection (c) shall be made to the fourth decimal place and shall be rounded to the third decimal place, which shall be increased by one if any digit other than zero appears in the fourth decimal place.

(d) Each share of the Du Pont Preferred Holdings, each share of the Du Pont Common Holdings, each share of Remington Preferred Stock held in treasury by Remington on the Effective Date, and each share of Remington Common Stock held in treasury by Remington on the Effective Date, shall be forthwith cancelled.

(e) Subject to the limitations of Section 4, the conversion of shares of Remington Common Stock pursuant to this Agreement shall be complete and effective on the Effective Date without regard to the date or dates upon which certificates representing shares of Remington Common

Stock shall be surrendered by the holders thereof for certificates representing Du Pont Common Stock as hereinafter provided. Subject to the limitations of Section 4, the conversion of the shares of Remington Preferred Stock pursuant to this Agreement shall be complete and effective on the Effective Date without regard to the date or dates upon which certificates representing shares of Remington Preferred Stock shall be surrendered by the holders thereof for cash. Until so surrendered and subject to the limitations of Section 4, certificates for shares of Remington Common Stock shall be deemed for all purposes from and after the Effective Date to evidence the ownership of the number of full shares of Du Pont Common Stock into which such shares of Remington Common Stock shall have been converted by reason of the Merger and certificates for shares of Remington Preferred Stock shall be deemed for all purposes from and after the Effective Date to evidence the right to receive the cash into which such shares of Remington Preferred Stock shall have been converted as of the Effective Date as herein provided. Subject to the limitations of Section 4, (i) upon surrendering certificates formerly representing shares of Remington Preferred Stock a stockholder shall be entitled to receive the amount of cash into which his shares of Remington Preferred Stock have been converted by reason of the Merger and (ii) upon surrendering certificates representing shares of Remington Common Stock, a stockholder shall be entitled to receive the number of full shares of Du Pont Common Stock into which his shares of Remington Common Stock have been converted by reason of the Merger and the amount of cash, if any, paid in lieu of a fractional interest in Du Pont Common Stock pursuant to Section 3.

(f) Notwithstanding the provisions of subsection (b) of this Section 2, no share of Remington Preferred Stock, the holder of which has, within the time periods specified in Section 262 of the Delaware General Corporation Law, objected to the Merger and made demand upon the Surviving Corporation for payment of the value of such share, shall be deemed converted hereunder; provided, however, that any such share, the holder of which shall, with the approval of the Surviving Corporation, withdraw his objection to the Merger, shall be deemed converted hereunder as of the Effective Date.

### 3. *Fractional Shares*

No fractional shares of Du Pont Common Stock or certificate or scrip representing the same shall be issued in connection with the Merger. In lieu thereof each holder of Du Pont Common Stock having a fractional interest arising upon the Effective Date will receive cash in an amount equal to the product of (a) the fractional interest multiplied by (b) the Average Price. An exchange agent designated by Du Pont (the "Exchange Agent") shall pay to the stockholder entitled to the fractional interest the amount to which such stockholder is entitled, except that the Exchange Agent shall not pay such amount to any such stockholder who shall not have surrendered his certificates for exchange pursuant to Section 4, and shall retain such amount until such time as such certificates have been so surrendered.

### 4. *Exchange of Certificates*

4.1 *Exchange of Certificates.* After the Effective Date, each holder of an outstanding certificate or certificates theretofore representing capital stock of Remington shall surrender the same to the Exchange Agent, and each holder shall upon such surrender receive in exchange therefor a certificate or certificates representing the shares of Du Pont Common Stock to which such stockholder may be entitled on the Effective Date by reason of the Merger together with any cash payment made in lieu of a fractional share, and, in the case of Remington Preferred Stock, the cash payment. Until the surrender of a certificate or certificates evidencing the Remington Common Stock, any dividend or other distributions in respect of such shares of Du Pont Common Stock shall be accumulated and not paid or delivered, but at the time of such surrender, any such dividends or other distributions shall be paid or delivered in full but without interest thereon.

4.2 *Certificates in Other Names.* A certificate evidencing shares of Du Pont Common Stock in a name other than that in which the certificate surrendered in exchange therefor is registered may be issued if the certificate so surrendered shall be properly endorsed or otherwise in proper form for transfer and the person requesting such exchange shall pay to the Exchange Agent any transfer or other taxes required by reason of the issuance of a certificate for shares of Du Pont Common Stock in any name other than that of the registered holder of the certificate surrendered or establish to the satisfaction of the Exchange Agent that such tax has been paid or is not payable.

## 5. *Procedural Provisions*

5.1 *Approval.* The Agreement shall be submitted as soon as practicable (i) to the holders of Remington Common Stock and Remington Preferred Stock, voting as a single class, for approval (a) by the holders of a majority of shares of Remington Common Stock and Remington Preferred Stock voting thereon excluding the Du Pont Common Holdings and the Du Pont Preferred Holdings, and (b) by the holders of two-thirds of the shares of Remington Common Stock and Remington Preferred Stock outstanding, in accordance with the Delaware General Corporation Law, the Certificate of Incorporation of Remington and this Agreement, and (ii) to the sole stockholder of NewRemCo for approval in accordance with the Delaware General Corporation Law.

5.2 *Filing.* Upon receiving the approvals contemplated by Section 5.1, and upon the satisfaction of the other terms and conditions of the Agreement, Du Pont shall cause to be filed with the Secretary of State of the State of Delaware a Certificate of Merger setting forth the information required by the Delaware General Corporation Law and executed on behalf of NewRemCo. In addition, a duplicate copy of the Certificate of Merger, certified by the Secretary of State of the State of Delaware in accordance with Section 103 of the Delaware General Corporation Law, shall be recorded in the office of the recorder of the County of New Castle, State of Delaware.

5.3 *Effective Date.* The Merger shall become effective on the date and at the time when the Certificate of Merger has been filed with the Secretary of State of the State of Delaware. The date of such effectiveness is referred to herein as the Effective Date.

## 2. *Status and Conversion of Securities*

The manner and basis of converting the issued and outstanding shares of capital stock of Remington and of cancelling certain capital stock of Remington shall be as follows:

(a) Each share of NewRemCo Common Stock issued and outstanding on the Effective Date shall remain unchanged and unaffected by the Merger.

(b) Each share of Remington Preferred Stock other than the Du Pont Preferred Holdings and those shares of Remington Preferred Stock held in treasury by Remington, issued and outstanding on the Effective Date, shall be converted into a right to receive an amount in cash equal to One Hundred and Five dollars (\$105). Such payment shall be made exclusive of any accumulated dividend.

(c) Each share of Remington Common Stock, other than the Du Pont Common Holdings and those shares of Remington Common Stock held in treasury by Remington, issued and outstanding on the Effective Date, shall be converted into shares of Common Stock, \$1.66 $\frac{2}{3}$  par value, of Du Pont ("Du Pont Common Stock"), as follows:

(i) Each share of Remington Common Stock will be exchanged for .55 share of Du Pont Common Stock, provided that during the 10 trading days preceding the day before the Remington stockholders' meeting scheduled for voting on the proposed Merger, the average closing price of Du Pont Common Stock on the New York Stock Exchange Composite Tape calculated to three decimal places without rounding ("Average Price") is not less than \$42 $\frac{1}{4}$  per share and no more than \$47.00 per share.

(ii) If the Average Price is less than \$42 $\frac{1}{4}$  per share, the exchange ratio shall be adjusted such that each share of Remington Common Stock will be exchanged for a fraction of a share of Du Pont Common Stock determined by dividing \$23.24 by the Average Price; provided, however, that in the event the Average Price is less than \$40.00, the exchange ratio shall be fixed at .581.

(iii) If the Average Price of Du Pont Common Stock is more than \$47.00 per share, the exchange ratio shall be adjusted such that each share of Remington Common Stock will be exchanged for a fraction of a share of Du Pont Common Stock determined by dividing \$25.85 by the Average Price; provided, however, that in the event the Average Price is more than \$49.71, the exchange ratio shall be fixed at .52.

Unless otherwise provided, all calculations pursuant to this subsection (c) shall be made to the fourth decimal place and shall be rounded to the third decimal place, which shall be increased by one if any digit other than zero appears in the fourth decimal place.

(d) Each share of the Du Pont Preferred Holdings, each share of the Du Pont Common Holdings, each share of Remington Preferred Stock held in treasury by Remington on the Effective Date, and each share of Remington Common Stock held in treasury by Remington on the Effective Date, shall be forthwith cancelled.

(e) Subject to the limitations of Section 4, the conversion of shares of Remington Common Stock pursuant to this Agreement shall be complete and effective on the Effective Date without regard to the date or dates upon which certificates representing shares of Remington Common

Stock shall be surrendered by the holders thereof for certificates representing Du Pont Common Stock as hereinafter provided. Subject to the limitations of Section 4, the conversion of the shares of Remington Preferred Stock pursuant to this Agreement shall be complete and effective on the Effective Date without regard to the date or dates upon which certificates representing shares of Remington Preferred Stock shall be surrendered by the holders thereof for cash. Until so surrendered and subject to the limitations of Section 4, certificates for shares of Remington Common Stock shall be deemed for all purposes from and after the Effective Date to evidence the ownership of the number of full shares of Du Pont Common Stock into which such shares of Remington Common Stock shall have been converted by reason of the Merger and certificates for shares of Remington Preferred Stock shall be deemed for all purposes from and after the Effective Date to evidence the right to receive the cash into which such shares of Remington Preferred Stock shall have been converted as of the Effective Date as herein provided. Subject to the limitations of Section 4, (i) upon surrendering certificates formerly representing shares of Remington Preferred Stock a stockholder shall be entitled to receive the amount of cash into which his shares of Remington Preferred Stock have been converted by reason of the Merger and (ii) upon surrendering certificates representing shares of Remington Common Stock, a stockholder shall be entitled to receive the number of full shares of Du Pont Common Stock into which his shares of Remington Common Stock have been converted by reason of the Merger and the amount of cash, if any, paid in lieu of a fractional interest in Du Pont Common Stock pursuant to Section 3.

(f) Notwithstanding the provisions of subsection (b) of this Section 2, no share of Remington Preferred Stock, the holder of which has, within the time periods specified in Section 262 of the Delaware General Corporation Law, objected to the Merger and made demand upon the Surviving Corporation for payment of the value of such share, shall be deemed converted hereunder; provided, however, that any such share, the holder of which shall, with the approval of the Surviving Corporation, withdraw his objection to the Merger, shall be deemed converted hereunder as of the Effective Date.

### 3. *Fractional Shares*

No fractional shares of Du Pont Common Stock or certificate or scrip representing the same shall be issued in connection with the Merger. In lieu thereof each holder of Du Pont Common Stock having a fractional interest arising upon the Effective Date will receive cash in an amount equal to the product of (a) the fractional interest multiplied by (b) the Average Price. An exchange agent designated by Du Pont (the "Exchange Agent") shall pay to the stockholder entitled to the fractional interest the amount to which such stockholder is entitled, except that the Exchange Agent shall not pay such amount to any such stockholder who shall not have surrendered his certificates for exchange pursuant to Section 4, and shall retain such amount until such time as such certificates have been so surrendered.

### 4. *Exchange of Certificates*

4.1 *Exchange of Certificates.* After the Effective Date, each holder of an outstanding certificate or certificates theretofore representing capital stock of Remington shall surrender the same to the Exchange Agent, and each holder shall upon such surrender receive in exchange therefor a certificate or certificates representing the shares of Du Pont Common Stock to which such stockholder may be entitled on the Effective Date by reason of the Merger together with any cash payment made in lieu of a fractional share, and, in the case of Remington Preferred Stock, the cash payment. Until the surrender of a certificate or certificates evidencing the Remington Common Stock, any dividend or other distributions in respect of such shares of Du Pont Common Stock shall be accumulated and not paid or delivered, but at the time of such surrender, any such dividends or other distributions shall be paid or delivered in full but without interest thereon.

4.2 *Certificates in Other Names.* A certificate evidencing shares of Du Pont Common Stock in a name other than that in which the certificate surrendered in exchange therefor is registered may be issued if the certificate so surrendered shall be properly endorsed or otherwise in proper form for transfer and the person requesting such exchange shall pay to the Exchange Agent any transfer or other taxes required by reason of the issuance of a certificate for shares of Du Pont Common Stock in any name other than that of the registered holder of the certificate surrendered or establish to the satisfaction of the Exchange Agent that such tax has been paid or is not payable.

#### 5. *Procedural Provisions*

5.1 *Approval.* The Agreement shall be submitted as soon as practicable (i) to the holders of Remington Common Stock and Remington Preferred Stock, voting as a single class, for approval (a) by the holders of a majority of shares of Remington Common Stock and Remington Preferred Stock voting thereon excluding the Du Pont Common Holdings and the Du Pont Preferred Holdings, and (b) by the holders of two-thirds of the shares of Remington Common Stock and Remington Preferred Stock outstanding, in accordance with the Delaware General Corporation Law, the Certificate of Incorporation of Remington and this Agreement, and (ii) to the sole stockholder of NewRemCo for approval in accordance with the Delaware General Corporation Law.

Each and every obligation of Remington to be performed on or prior to the Effective Date shall be subject to the satisfaction, on or before the Effective Date, of the following conditions:

14.1 *Representations and Warranties.* Except for changes therein permitted or required under this Agreement, the representations and warranties of Du Pont and of NewRemCo set forth in this Agreement shall be true in all material respects as of the date hereof and as of the Effective Date; Du Pont and NewRemCo shall have performed and complied with all agreements and conditions required by this Agreement to be performed or complied with by either of them prior to or on the Effective Date; and Remington shall have been furnished with certificates of a Vice President and the Treasurer of Du Pont and a Vice President and the Treasurer of NewRemCo, dated the Effective Date, certifying in such detail as Remington may reasonably request to the fulfillment of the foregoing conditions.

14.2 *Exchange Listing.* The shares of Du Pont Common Stock issuable pursuant to Section 2 of this Agreement which have not theretofore been listed on the New York Stock Exchange shall have been authorized for listing on the New York Stock Exchange upon official notice of issuance.

14.3 *Opinion of Counsel.* Remington shall have been furnished with an opinion, dated as of the Effective Date, of C. E. Welch, Esq., General Counsel to Du Pont, as to the following matters:

(i) Du Pont and NewRemCo are corporations duly organized, validly existing and in good standing under the laws of the State of Delaware, and have corporate power to carry on their business as it is then being conducted;

(ii) The execution, delivery and performance of this Agreement by Du Pont and NewRemCo have been duly authorized and approved by all requisite action of the Board of Directors of Du Pont and NewRemCo and the stockholder of NewRemCo; and this Agreement has been duly executed and delivered by Du Pont and NewRemCo and constitutes a valid and binding obligation of Du Pont and NewRemCo in accordance with its terms;

(iii) Du Pont's authorized capital stock consists of 4,000,000 shares of Preferred Stock without par value, of which there are issued and outstanding 1,672,594 shares of the \$4.50 Series and 700,000 shares of the \$3.50 Series, and 195,000,000 shares of Common Stock of the par value of \$1.66 $\frac{2}{3}$  per share. Such opinion shall state, as of a date not more than ten days prior to the date of the opinion, the number of shares of Common Stock issued and outstanding and the number of shares of Common Stock held in the treasury. NewRemCo's authorized capital stock consists of 1,000 shares of Common Stock, \$1 par value, of which 1,000 shares are issued and outstanding. All outstanding shares of Du Pont and NewRemCo are duly authorized, validly issued, fully paid and nonassessable.

(iv) Except as provided in employee benefit plans or otherwise previously disclosed to Remington in writing prior to the date of this Agreement, Du Pont does not have any outstanding options, warrants, calls, rights or commitments or any other agreements of any character obligating it to issue or transfer any shares of Du Pont capital stock or any securities convertible into or evidencing the right to purchase any shares of such capital stock.

(v) Neither the execution of this Agreement nor the performance of the transactions contemplated hereby will result in the violation of any statute or regulation or any order or decree of any court or governmental authority binding upon Du Pont or any of its subsidiaries or their respective property, or conflict with or result in a default under any of the terms and provisions of the certificate of incorporation or bylaws of Du Pont or any of

its subsidiaries or any indenture, loan agreement or other agreement known to such counsel by which Du Pont or any of its subsidiaries is bound;

14.4 *Tax Opinion.* Remington shall have received from Simpson Thacher & Bartlett their opinion to the effect that the Merger in accordance with the terms proposed in this Agreement will constitute a reorganization within the meaning of Section 368(a)(1)(A) and Section 368(a)(2)(D) of the Internal Revenue Code of 1954, as amended, and no gain or loss will be recognized to the holders of Remington Common Stock upon receipt of Du Pont Common Stock in exchange for such Remington Common Stock, provided, however, that gain or loss will be recognized by such holders receiving cash in lieu of fractional interests in Du Pont Common Stock in an amount equal to the difference between the cash received and the holder's tax basis for such fractional interests.

14.5 *Investment Banker's Opinion.* Remington shall have received from Salomon Brothers their opinion dated as of the date of the Proxy Statement to the effect that the exchange terms set out in Section 2, are fair, from a financial point of view, to the holders, other than Du Pont, of Remington Common Stock and Remington Preferred Stock and such opinion shall not have been withdrawn, amended or modified in any significant way.

(vi) no suit, action or other proceeding is to the best of the knowledge of such counsel pending or threatened before any court or administrative agency which, in such counsel's opinion, would result in a judgment or order preventing consummation of the Merger; and

(vii) such counsel has no reason to believe that the Proxy Statement, insofar as it relates to Remington, and the Registration Statement, insofar as it relates to Remington, at the time it became effective, contained any untrue statement of a material fact or omitted to state any material fact required to be stated therein or necessary in order to make the statements therein, in the light of the circumstances under which they are made, not misleading.

ACTUARIAL FACTORS FOR USE IN  
CALCULATING INCOME-LEVELING OPTIONS  
AND SURVIVOR PAYMENTS

This report recommends revised actuarial factors to be used under the Pension and Retirement Plan (Plan), to calculate (1) income-leveling, (2) spouse benefit coverage, and (3) joint and survivor options. Three basic changes are recommended for adoption:

- Unisex Mortality Tables - to comply with a recent U.S. Supreme Court decision that prohibits use of sex-distinct actuarial factors effective August 1, 1983. Beginning that date, the same actuarial tables must be used for both sexes.
- Improved Mortality Rates - to bring mortality rates used for the above option elections in line with recent changes in mortality assumptions approved by the Executive and Finance Committees for pension costing purposes.
- Variable Investment Return Assumption - to automatically keep the pricing of option elections in line with current market conditions and at the same time avoid problems caused by an IRS requirement which otherwise would limit our ability to change the investment return assumption beginning January 1, 1984.

These changes would be effective August 1, 1983, subject to certain transition rules that will minimize the impact of the variable investment return assumption on 1983 retirements. The changes would result in slightly improved benefits for retiring males electing options and reduced benefits for retiring females electing options. After the transition rules expire, the impact is dependent on how investment return rates fluctuate. Higher rates

will improve benefits for joint and survivor options and spouse benefit coverage and reduce benefits for income-leveling. The reverse is true for lower rates.

Tables containing the recommended revised actuarial factors are on file with the Secretary to your Board. Such changes will result in no additional cost to the Company. A discussion of each of the changes follows.

Sex-Distinct vs. Unisex

As a result of the July 6, 1983 U.S. Supreme Court decision in Arizona v. Norris, use of sex-distinct mortality tables is prohibited for all employer-sponsored benefit plans beginning August 1, 1983. Du Pont pension benefits have always been calculated without regard to sex. However, for administering certain options and benefit restrictions, sex-distinct factors have been used. Therefore, to comply with this Supreme Court decision, only these factors need be converted to a unisex basis. (In a later Employee Relations Department report, the Board of Directors will be asked to remove the reference to sex from the Plan.)

In order for option elections to be provided at no cost/ no savings to Du Pont (vs. non-election of options), it is important that the factors reflect the anticipated male/female mix among those retiring Du Pont employees who are expected to elect the various options. Therefore, the recommended new tables reflect the weighted average of actual male/female election experience under the various options over the past several years. Legal Department (J. F. Lawless) concurs that this weighted average approach is consistent with the intent of the Supreme Court decision noted above.

Revised Mortality Assumptions

During 1982 our consulting actuarial firm, A. S. Hansen, Inc., conducted a mortality study on our behalf. The study revealed that life expectancy among Du Pont pensioners had improved much more rapidly than previously assumed. As a result, a new mortality table was developed for pension costing purposes based on Du Pont experience for the thirteen-year period ending June 30, 1981. Such revised mortality rates were approved by the Executive and Finance Committees in November, 1982 for pension costing purposes and we recommend they also be adopted by your Board for purposes of calculating actuarial factors for Plan options. Adoption of these new mortality rates will increase benefits to future pensioners who elect income-leveling or one of the survivor options.

Variable Investment Return Assumption

In the past, our practice has been to change the investment return assumption used to price options under the Plan consistent with changes in our investment return assumption used for pension costing purposes. Until a few years ago investment returns were relatively stable and fairly predictable, and by periodically changing the underlying assumed investment return we were able to equitably price the various options -- i.e., achieve essentially a no cost/no savings basis (vs. non-election of options) to the Company and employees. However, in recent years interest rates and investment returns have been quite volatile, and at times have been above or below our investment return assumption (currently 7.5%) for pricing option elections. When our investment return assumption is too low, we undercharge retiring employees for income-leveling and overcharge for survivor options. The reverse is true when our investment return

- 3 -

EXHIBIT

assumption is too high.\* Since it appears likely that investment returns will continue to be volatile in the foreseeable future, we believe use of an appropriate current rate to price option elections will be more equitable to both the Company and retiring employees -- since it will reflect current market conditions at the actual time of retirement.

Accordingly, we believe that the most appropriate way to properly reflect current market conditions in determining actuarial factors will be to index the investment return assumption to some published rate over which the Company exercises no control. Use of such an appropriate published variable rate will automatically ensure equitable pricing of option elections and satisfy IRS requirements, thereby eliminating the need for periodic updating of the investment return assumption by your Board.

The Pension Benefit Guaranty Corporation (PBGC), an agency of the U.S. Government that insures pension benefits, publishes a monthly set of interest rates used by terminating pension plans to value termination liabilities. One of these rates, the rate for immediate annuities (currently 9.25%), closely approximates the current rate inherent in the cost of buying an individual annuity from an insurance company and hence would be an appropriate rate for pricing Plan options. Therefore, we recommend that such published PBGC immediate annuity rates be used for determining our actuarial factors. (For information, Conoco currently uses the same PBGC immediate annuity rates as an index to price their options, including their optional lump sum pension.)

\*If we think of income-leveling as an accelerated payment of a portion of an employee's pension benefits (i.e., a "loan" from the Company), then use of a below market interest rate is, in effect, undercharging the employee. Similarly, a J&S election can be viewed as a deferral of pension benefits (i.e., a "loan" from the employee to the Company), in which case use of a below market interest rate would result in the employee undercharging the Company (equivalent of the Company overcharging the employee).

In addition, the IRS requires that all actuarial option factors (or the actuarial formulae and assumptions used to develop them) be made part of the Plan by the end of 1984, effective retro-active to January 1, 1984. Once the factors or formulae and assumptions are included in the Plan, they will no longer be matters of Plan administration handled by your Board, but rather Plan provisions subject to the same legal and bargaining considerations that are associated with all other Plan provisions. (Our current thinking re compliance with the above requirement is to include tables of the appropriate factors, rather than complex formulae and assumptions in the Plan.) These requirements will significantly inhibit our future ability to unilaterally update the investment return assumption (and other assumptions) beginning January 1, 1984. This is another reason for changing to the published PBGC immediate annuity rates.

To simplify communication and administration of variable rate option factors, and to minimize the impact on 1983 retirements, we recommend that the administrative guidelines set forth in Exhibit A be adopted.

#### Summary and Recommendation

Exhibit B compares the recommended actuarial factors with our current factors. As the exhibit shows, before changing the investment return assumption, the net result of unisex and improved mortality rates will be a slight improvement in benefits for retiring males and a modest, but proportionately more significant, reduction in benefits for retiring females. The reduced benefits for females result from the mandated change to unisex factors. With the adoption of a variable investment return assumption, as rates fluctuate, higher rates will improve benefits for joint and survivor options and spouse benefit coverage and reduce benefits for income-leveling. The reverse will be true for lower rates.

To satisfy ERISA requirements it will be necessary to phase-in the new actuarial factors recommended herein so that no

EXHIBIT

employee retiring on or after August 1, 1983 will receive a smaller benefit than would have been payable had the employee retired on July 31, 1983 and elected the same option(s). As a practical matter, this phase-in period will apply only to females who retire near-term with options in effect.

On September 23, 1976 your Board approved procedures to be used in administering Paragraph F of Section IX of the Plan (Non-Duplication of Benefits). We recommend that the mortality rates and investment return assumptions used in accordance with such procedures reflect the changes in the rates and assumptions recommended herein for income-leveling and survivor options.

Your Board also administers the pension plans of Du Pont Agrichemicals Caribe Inc. (the Caribe Biochemicals, Inc. Pension and Retirement Plan) and Du Pont Pharmaceuticals Caribe Inc. (the Endo Inc. Employee Retirement Plan). We recommend the changes recommended herein also be adopted for these plans.

The procedures used to derive the recommended factors have been approved by the firm of A. S. Hansen, Inc., our consulting actuaries. Employee Relations Department (C. W. Lee) concurs in the recommendations contained herein. If your Board agrees, the resolutions in Exhibit C, approved as to legal aspects by the Legal Department (M. P. Sjogren), are suggested for adoption to become effective August 1, 1983. Section II of the Pension and Retirement Plan requires that rules adopted by the Board of Benefits and Pensions be approved by the Executive Committee. Accordingly, Legal Department recommends that this action be submitted to the Executive Committee for approval.

ADMINISTRATIVE GUIDELINES FOR DETERMINING  
VARIABLE INVESTMENT RETURN RATES

1. Rates will be established quarterly, rounded to the nearest whole percentage and based on the average PBGC rates for the preceding quarter. This will permit orderly retirement planning and minimize the number of rate changes.
2. Rates will be limited to a 5%-15% range, i.e., if the average PBGC rate was above 15%, then 15% would be used, or if it was below 5%, then 5% would be used.\*
3. Although the variable investment return rates are effective August 1, 1983, such rates will be deemed to be 7.5% (the current rate) for employees retiring under Section IV of the Plan prior to January 1, 1984. This transitional rule will minimize the disruption of retirement planning for near-term retirements.

\*This approach, combined with rounding to the nearest whole percent, will greatly reduce the number of factor tables which must be produced and distributed. The PBGC rate, which has ranged only 6.75% to 11.00% since it was first published effective 9/2/74, is much less volatile than the prime rate.

TO: EXECUTIVE COMMITTEE  
FROM: FINISHES & FABRICATED PRODUCTS DEPARTMENT

PROPOSAL TO SELL REMINGTON ARMS COMPANY'S  
ABRASIVE PRODUCTS BUSINESS AND  
BARNUM AVENUE SITE IN BRIDGEPORT, CONN.

We request non-objection to the sale by Remington of its Abrasive Products business and its Barnum Avenue site in Bridgeport, Connecticut, for a total of not less than \$12.0MM plus on-hand inventories at average cost, currently estimated at \$1.1MM.

While Remington is requesting general authority to sell the assets described, it has entered into a letter of intent with two affiliates of The InterTech Group, Inc.; RemGrit Corporation (RG) will purchase Remington's Abrasive Products business, and ZBS Holdings (ZBS) will purchase Remington's Barnum Avenue site, all for a total of \$12.5MM plus inventories at average cost. InterTech, a \$100MM

- 1 -

plus corporation headquartered in North Charleston, South Carolina is involved in the manufacture of elastomer composites and precision coated fabrics. In 1984, InterTech purchased the Industrial Fabrics business from Finishes and Fabricated Products Department (F&FP) and continues to contract manufacture electrical components for Photo-systems and Electronic Products Department. Mr. Jerry Zucker, Chairman and Chief Executive Officer of The InterTech Group, Inc., along with James G. Boyd and Fred G. Smith of Smith Boyd & Associates, an investment development firm, are the principals of both RG and ZBS.

Included in the sale of Abrasive Products assets are the on-going business comprising annual worldwide sales of about \$4MM to industrial users and hardware retailers of a broad line of tungsten carbide coated products; patents and trademarks; confidential process and product technology; marketing and customer information; manufacturing equipment; related goodwill; and inventories at average cost. Remington will retain the accounts receivable and accounts payable.

Remington's Abrasive Products business and its Barnum Avenue site, consisting of land together with the improvements thereon, have a gross book value of approximately \$18MM. Certain machinery and equipment will be retained by Remington to support future manufacture of ammunition components; the remaining machinery and equipment will become the property of RG. All depreciable assets are essentially fully reserved. It is proposed that these assets be sold to the same buyer because the purchase offer exceeds the value of separate proposals from other prospective bidders.

The parties plan to promptly negotiate a purchase and sale agreement and target the closing during the first quarter of 1986.

# BACKGROUND; REASON FOR SALE

## Abrasive Products

The Remington line of Abrasive Products consists of high performance saw blades that feature tungsten carbide grit metallurgically bonded along the cutting edge. The product line, trademarked "Grit-Edge", includes six types of blades that are used to cut a variety of materials not easily or virtually impossible to cut with conventional blades. Remington acquired the process technology in 1965 and began manufacturing operations at Barnum Avenue.

Modest sales growth occurred during the first decade, reaching \$1.4MM by 1975. During the next five years, sales increased rapidly to \$3.6MM due mostly to adopted uses for cutting belted tires and composite materials. However, since 1980, sales have shown little growth.

Recent and projected financial performance is shown below:

	<u>1983</u>	<u>1984</u>	<u>1985</u>	<u>1986</u>	<u>1987</u>	<u>1988</u>	<u>1989</u>	<u>1990</u>
	(Dollars in Millions)							
Sales	3.4	4.0	3.8	4.2	4.5	4.8	4.8	4.7
ATOI	0.5	0.7	0.8	0.6	0.7	0.8	0.7	0.6
Cash Flow	0.3	1.0	0.5	0.2	0.6	0.7	0.7	0.6

We forecast flat financial performance over the next five years, due principally to escalating competitive pressures. Generic competition is already evident in Europe and will probably begin in the U.S. on or before the time our principal patents expire in 1988-90. In addition, while the Abrasives business is profitable and generates cash, it is not critical to the strategic direction of F&FP and has minimal interaction with other Du Pont businesses. Our assessment is that, at this time, the business would have greater value to another company.

#### Barnum Avenue Site

The Barnum Avenue site consists of approximately 28 acres zoned light industrial. Included are numerous multi-story buildings which comprise approximately 900,000 square feet of office, warehouse and manufacturing space. The facilities have been used in the manufacture of small caliber ammunition since the early 1900's.

Ammunition manufacturing at Barnum Avenue has been reduced since construction of the Lonoke, Arkansas plant in 1970. All center-fire operations and two-thirds of the shotshell operations were transferred to Lonoke in 1970-71. The remaining shotshell operations moved to Lonoke in 1984. The existing manufacturing operations relate solely to the production of rimfire ammunition. Rimfire cartridge cases and lead bullets are manufactured at Barnum Avenue and then processed into loaded ammunition at nearby Remington Park.

At present Remington utilizes less than 200,000 square feet of the Barnum Avenue space for Abrasives operations, rimfire manufac-

turing, and ammunition warehousing. To support liquidation of this excessive investment, Remington has developed a manufacturing strategy that includes outsourcing of selected components.

Remington has used off-site contractors to dispose of hazardous waste from this site. Remington will retain follow-up responsibility with these contractors.

#### PRINCIPAL TERMS

Remington has signed a Letter of Intent with RG and ZBS dated January 13, 1986; principal terms of the sale are summarized below. Employee relations aspects are discussed in the Personnel section. The resolutions recommended for your approval beginning on page 9 authorize execution of a definitive agreement and related documents, provided terms therein are substantially as set forth herein and approved by Finance and Legal Departments.

Principal terms are:

- Remington will sell certain assets associated with its Abrasive Products business including dedicated machinery and equipment; customer lists and marketing information; the trademark "Grit Edge"; patents, and confidential technical information; all inventories; and related goodwill.
- Remington will grant the buyer a six month non-exclusive, non-transferable license to use the Du Pont Oval and Remington trademarks as currently used on products.
- Remington will also sell its Barnum Avenue site of approximately 28 acres together with improvements thereon. Reming-

ton will retain certain machinery and equipment; the remaining machinery and equipment will become the property of RG with the proviso that it will not be used to compete with Remington's ammunition business.

- Remington will retain the accounts receivable and accounts payable.
- Purchase price for the business and other assets, excluding inventories, is \$12.5MM.
- RG will purchase all non-obsolete and useable inventories at Remington's average cost, currently estimated at \$1.1MM. The purchase price for such inventories shall be evidenced by a promissory note due one year after the closing.
- For three years, RG will manufacture cups, slugs, and shells for Remington use in making rimfire ammunition. Remington will lease to RG certain equipment and supply raw materials; RG will furnish labor, facilities, and services. RG will be reimbursed for its direct costs and also receive a management fee.
- RG will make offers of employment to such site and non-site personnel as they desire for operation of the Abrasive Products business and for the manufacturing described above. They will offer an equitable employment package. It is expected that RG will negotiate a satisfactory labor agreement.
- Payment will be in cash at closing except for the promissory note described above. We expect to execute a definitive

purchase and sale agreement and close during the first quarter of 1986.

#### PERSONNEL

Remington currently employs ten exempt, seven nonexempt, and fifty-five wage people to support the Abrasives business and the manufacture of cups, slugs, and shells for its rimfire ammunition business. All are located at the Barnum Avenue site. The buyer is expected to make offers to essentially all exempt and most of the wage and nonexempt personnel.

Exempt employees receiving offers from the buyer will not receive an offer from Remington with the exception of one exempt person. Wage and nonexempt employees receiving an offer from the buyer will be allowed to exercise their seniority rights to retain employment with Remington in the adjacent Park area. It is expected that the pay and benefits offered by the buyer will be comparable to their current pay and benefits. Those employees going with the buyer will not receive severance pay.

#### FINANCIAL CONSIDERATIONS

Presented below is a comparison of the net present values (NPV), discounted at 15%, of the alternative courses for the Abrasive Products business, the Barnum Avenue site, and certain rimfire ammunition manufacturing operations located there.

<u>Alternative</u>	<u>NPV @ 15% (\$MM)</u>
Promptly sell the Abrasive Products business and the Barnum Avenue site, and have certain rimfire ammunition components manufactured	8
Continue in Abrasive Products business, consolidate rimfire manufacturing operations at Park (1988), and sell Barnum Avenue site (1988)	6

The proposed sale of the business and other assets for \$12.5MM plus inventories at average cost will produce net earnings (after shutdown expenses) of about \$7MM, or approximately 3¢ per share, in the month of closing (expected to be in first quarter of 1986), and positive cash flow of \$8MM.

The \$8MM NPV shown above for selling the Abrasives business and Barnum Avenue site includes a small operating cost penalty for outsourcing which has an NPV of \$(0.2MM). By liquidating the Barnum Avenue site, the ammunition business will generate an additional positive cash flow of about \$5MM in 1986; sale of the Abrasives business will provide the balance of \$3MM.

#### CONCURRENCE OF OTHER DEPARTMENTS

Corporate Plans, Employee Relations, External Affairs, Finance, Legal, and Materials & Logistics Departments and the Director

of Safety, Health, and Environmental Affairs have no objection to this proposal insofar as their respective interests are concerned. Patent Board approval has been obtained.

RECOMMENDATIONS

Authority is requested to dispose of certain assets of Remington's Abrasive Products business including patents, trademarks, and technical know-how, and the Barnum Avenue site at Bridgeport, Connecticut, all having a gross book value of approximately \$18MM, for a minimum of \$12.0MM plus Remington's inventories at average cost, estimated at \$1.1MM.

Should your Committee approve, the following resolutions, prepared by the Legal Department (P. J. Bonanto), are recommended for adoption by the Finance Committee.

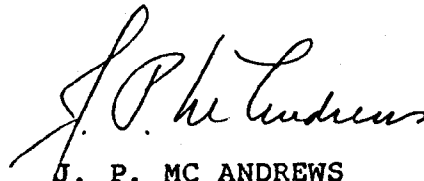

RESOLVED, that the Group Vice President - Finishes and Fabricated Products or the Vice President - Finishes and Fabricated Products each hereby is authorized to advise the Board of Directors of Remington Arms Company, Inc. that the Du Pont Company, as shareholder, has no objection to the proposal to sell the Abrasive Products business assets and the Barnum Avenue site.

RESOLVED, that the Group Vice President - Finishes and Fabricated Products and the Vice President, Finishes and Fabricated Products each hereby is authorized to execute on behalf of Du Pont any

agreements and related documents necessary or appropriate in connection with the sale of Remington Arms Company, Inc.'s Abrasive Products business assets and the Barnum Avenue site.

RESOLVED, that the Group Vice President - Finishes and Fabricated Products and the Vice President, Finishes and Fabricated Products each hereby is authorized to execute on behalf of the Company an agreement granting to the purchaser of the Abrasive Products business assets the right to use the Du Pont Oval and trademark in connection with the purchaser's sale of Abrasive Products for a transition period not to exceed six (6) months from the closing, provided such agreement shall be approved prior to execution by the Legal and External Affairs Departments.

RESOLVED, that all agreements in connection with the sale of the Abrasive Products business assets and the Barnum Avenue site shall be substantially as outlined in the report of the Finishes and Fabricated Products Department dated February 7, 1986, entitled "Proposal to Sell Remington Arms Company's Abrasive Products Business and Barnum Avenue Site in Bridgeport, Conn.", and that all such agreements and related documents shall, prior to execution, be approved by the Legal and Finance Departments.

HELD SEP 1 - 1990AUTHORITY FOR COMMODITIES HEDGING PROGRAM

The following resolution is adopted pursuant to a letter dated November 30, 1990 from B. R. Brown, President, indicating that E. I. du Pont de Nemours and Company, Inc. has approved the implementation by Remington Arms Company, Inc. of a Commodities Hedging Program.

RESOLVED, that the President hereby is authorized with power of delegation (such power shall not be re-delegated) to:

- (a) Enter into agreements and to open and close brokerage accounts for the purchase and sale of commodities futures and options in support of Remington's Hedging Program, and designate all attendant procedures: provided, however, that any of the authorizations described above require the approval and signature of any two employees to whom such authority has been delegated: provided, further, that the above mentioned delegates shall not be authorized to sign checks or other withdrawal orders against brokerage accounts nor have any access to safekeeping facilities:
- (b) Execute indemnification agreements with banks and/or brokerages regarding the purchase and sale of commodities futures and options in support of Remington's Hedging Program.
- (c) Purchase and sell futures and options in support of Remington's Hedging Program.

RESOLVED FURTHER, that all prior actions in conflict with the foregoing resolution hereby are terminated.

CONFIDENTIAL - INTERNAL USE ONLY

November 30, 1990

TO: CHAIRMAN  
FROM: B. R. BROWN

REMINGTON ARMS COMPANY--HEDGING PROGRAM

Remington Arms Company requests your authorization to implement a commodities hedging program for various raw materials used in the manufacture of ammunition, specifically copper, zinc, and lead. The cost of these raw materials is a significant portion of the total manufacturing cost. The purpose of this program will be to protect Remington's earnings against the effect of rising raw material costs and falling prices.

BACKGROUND

Remington's sales year begins in January with prices set and published at that time. Because of ensuing market volatility and competitive promotions, these prices serve as a ceiling with substantial potential for decline over the year. After the price setting date Remington has the risk of rising raw material costs throughout the current sales period. In addition, during a period of falling prices, as we are currently experiencing, Remington can be at a competitive disadvantage for all inventory produced in prior periods with higher raw material costs.

Under current conditions, a competitor, utilizing a commodities hedging program could have a cost advantage over Remington. Furthermore, one of Remington's key competitors, Winchester (Olin), currently owns a brass mill which we believe can provide them a competitive advantage for some raw material purchases.

Remington has contracted with Merrill-Lynch Consumer Markets to perform a risk management study. Merrill-Lynch has developed commodities hedging programs for other large corporate clients and has a positive track record in this area. As a result of the study, Merrill-Lynch has developed a commodities hedging program which we believe will have benefits to Remington by enabling us to improve our margins through reduced raw materials cost.

OFFICIAL FILE COPY

## RAW MATERIAL PURCHASES

During 1990, Remington purchased approximately 14 million pounds of brass strip and brass cups containing 10 million pounds of copper and 4 million pounds of zinc. Copper purchases will represent approximately 6 million dollars and zinc approximately 1.5 million dollars. 1990 purchases of lead are estimated to be 33 million pounds or 9 million dollars.

## HEDGING PROGRAM OBJECTIVES

The program objective is to protect the profits made in the normal course of doing business and preserve the value of commodity related assets. The proposed program is not speculative and is not conceived to be a profit center. It is intended to execute strategies in support of the objective with predetermined limits and meaningful controls. More specifically:

- o To protect earnings from rising costs. Remington can do this through the use of futures contracts or call options purchased in sufficient quantities to be equal to the amount of projected forward raw material needs. Any rise in actual raw material costs would be offset by an equal rise in the value of long futures or call positions. All gains from appreciating hedge instruments would be applied to the raw material costs for the period being hedged.
- o To protect year-end inventory from declining commodity prices. Remington, through the purchase of put options, can cover the period from production to the establishment of sales prices in the beginning of the following year. Should there be a sharp decline in commodity prices in the interim, translating to lower sales prices, year-end inventory would be protected.

## HEDGING PROGRAM CONTROLS

Remington plans to introduce this program conservatively, and in the initial stages apply only 50 percent of raw material requirements for the next 15 months to the hedge program. Moreover, hedging activities would be skewed to the nearby positions where data on usage and price ranges are more reliable with lessening coverage extended for long-term requirements. By hedging only half of Remington's raw material requirements, the unhedged portion moves with the market and provides a measure of conservatism.

Guidelines would be established each quarter for the maximum application of each type of hedging vehicle, (i.e. physicals, options-puts/calls, futures) to be used in the following quarters.

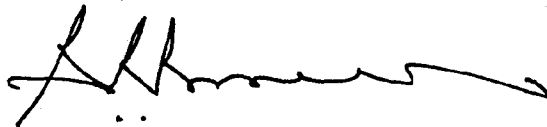

On a daily basis, results would be monitored with a weekly report developed to reflect total commitments by commodity. A monthly statement would summarize all activities and open positions, and a quarterly report would compare actual position to strategy, market, and budget/standard costs as well as actual costs to equivalent market average price.

Merrill-Lynch has provided recommendations as to how Remington's program should be structured, much in line with the programs they have established for other clients. They would continue to provide needed risk management services and act as brokers for Remington's hedge program. All strategy recommendations would be reviewed by Remington's Purchasing Manager and Director of Accounting and Systems and approved by the Manager, Administration and Services. The program would be implemented through the Purchasing Department and the President, Remington Arms Company would be briefed on an annual basis as part of the overall Remington's business review.

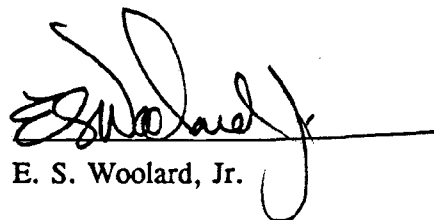

Per corporate authorization limits, authority for this program can be granted by the Chairman, E. I. du Pont de Nemours and Company, Inc. under the purchases and sales commitment guidelines.
