Dear Mr. Flamisch,  
Welcome to Remington Country. Based on the information you provided, your firearm was manufactured in or around 1976.  
Since this is before 1982, please visit our safety modification program message at  
[http://www.remington.com/Safety\\_Modification\\_Program/remington\\_safety.htm](http://www.remington.com/Safety_Modification_Program/remington_safety.htm)  
The safe use and performance of your firearm depends on correct assembly and routine maintenance, as well as adherence to the "10 Commandments of Firearm Safety." <http://www.remington.com/support/10comm.htm> It is critical that you familiarize yourself with the information in both the owners manual and safety booklet. Whether you are a veteran shooter with a collection of Remington firearms, or a first time shooter, take the time to review this important literature and be certain that you are practicing firearm safety!

If you need a replacement copy of your Remington owners manual, or safety booklet, you can download or request a copy from the support section of our web-site.  
Owners manuals - <http://www.remington.com/whatsnew/readroom.htm>  
Safety Booklet - <http://www.remington.com/pdfs/sftybklt.pdf>  
You may also obtain a copy by calling toll free 1-800-243-9700, and pressing option 1.

Based on the serial number I've entered, can someone tell me when my weapon was manufactured?

Thank You!

Jim Flamisch
