Dear Dan,

According to the serial number you have provided, your gun was made in or
around 1982. Please click on the link below to see how to determine if
your gun has the Bolt Lock Safety feature. You should be able to obtain
information regarding this modification at the sales offices given below.
We appreciate your support of Remington products and your visit to
Remington Country.

I am currently living in Germany...for the time being, and have the
aforementioned weapon. Can you tell me by the serial number if my rifle is
in the category of needing the modification.

If so, is there an authorized repair facility in Germany that can effect
the modification?

If the gun has to come back to the States, does the entire gun have to
come back, or just the bolt?

Thanks Much,
Dan Unger
