Dear Mr. Bissman,  
Thank you for your inquiry. According to the serial number provided, your firearm may be included in our Safety Modification Program. We encourage you to contact our Parts & Repair Department at 1-800-243-9700 for further instructions to determine if your firearm has a bolt lock safety.

As with any used firearm, we would strongly recommend you have the firearm serviced and evaluated by a competent gunsmith for function and safety. We feel it is imperative you know the exact condition of your firearm prior to shooting. Please also read our "Guide to Buying a Used Gun" found through the link below:

<http://www.remington.com/magazine/preview/rc007007.asp>

If you are not aware of a gunsmith in your area, please feel free to contact one of our RARC's found in the Support/Repair section of our website or the following link:

<http://www.remington.com/repairsvc/modelselection.asp>

If you will complete the form located in the What's New/Reading Room section of our website, we will forward to you a copy of the original owner's manual.

<http://www.remington.com/whatsnew/readroom.htm>

You can also find owner's manuals for some of our current models on-line in our Reading Room in the "What's New" section.

I just purchased this rifle used. Do you have a downloadable firearms manual?

Also, is this rifle affected by your safety modification program?

Thank you.

Sincerely,

Paul Bissman
