Dear Mr. Olson,

Thank you for contacting Remington Country. Your Model 700 with noted serial number was produced around 1973 and was not listed in a recall.

Your Model 700 rifle has a bolt-lock mechanism. It is eligible for the bolt-lock Safety Modification Program. If you participate, your firearm will be cleaned and inspected for proper functioning by a qualified gunsmith. For instructions on participating in this modification, go to: http://www.remington.com/Safety_Modification_Program/700_safety.htm

I read some place that the above rifle had a recall because of bad barrels. Do you know anything about this? I just purchased this rifle (used) and it doesn't shoot very well at all.

Thanks

Mike Olson
