

Fw: Let me know if you get the answer

Discussion Thread

Response (Rena)
Dear Claude,

Thank you for your inquiry. The 700 Classic was chambered in 280 in 1997. The bolt lock safety mechanism was on all pre-1982 firearms. I have provided a link below that will give you information on what calibers and what years we made them in. I really don't have any technical information such as specs on it.

<http://www.remington.com/firearms/centerfire/700clpst.htm>

Thank you for your continued support of Remington products and thank you for visiting Remington Country!

Customer (brian birks)
