Dear Mr. Baker,

Thank you for contacting Remington Country. Your Model 700 was produced in 1970. Your firearm has not been involved in a recall. Your rifle was originally installed with a bolt-lock, which means you have to put the safety switch on fire before you can open the bolt. We are offering a conversion at a special price if you would like your firearm converted, so that you can open the bolt at anytime with the safety on safe. To view more details regarding this modification, go to:

http://www.remington.com/Safety_Modification_Program/remington_safety.htm

Dear Sirs,

Was wanting to know if there is a recall on my rifle? Because you have to have it on fire to unload it. The serial number is 6375432.

Thank you
Jesse Baker
