Dear Mr. Eubank,

Thank you for contacting Remington Country. Your Model 700 was produced in 1998. Your firearm has not been involved in a recall. Your rifle was not originally installed with a bolt-lock. To view more details regarding the modification you mentioned, go to:

http://www.remington.com/Safety_Modification_Program/remington_safety.htm

I have a Remington Model 700 .270 caliber rifle. Recently, I learned of the saftey defect with the rifle and also discovered that my rifle has this defect. What steps should I take to remedy this problem?
