Dear Mr. Westbrook,

Thank you for contacting Remington Country. We can check to see if your rifle has been recalled if you will forward your serial number.

One of your rifles was originally installed with a bolt-lock, which means you have to put the safety switch on fire before you can open the bolt. We are offering a conversion at a special price if you would like your firearm converted, so that you can open the bolt at anytime with the safety on safe. To view more details regarding this modification, go to:

http://www.remington.com/safety_modification_program/remington_safety.htm
