Dear Mr. Keller,

Thank you for contacting Remington Country. The bolt lock safety modification is not a recall. Certain rifles produced before 1982 were installed with a bolt-lock, which means you have to put the safety switch on fire before you can open the bolt. We are offering a conversion at a special price if you would like your firearm converted, so that you can open the bolt at anytime with the safety on safe. To view more details regarding this modification, go to:

http://www.remington.com/Safety_Modification_Program/remington_safety.htm

hellos,

could you please clear up all of the stroies regarding your safety on the 700 bolt-action rifles - i was told there is or was a class action lawsuit? thx for your time.
