Response (Chris)  
Dear Mr. Talasky,

2/10/2005 2:46:26 PM

Thank you for contacting Remington Country. Your Model 700 was produced in 1980. This firearm has not been involved in a recall. Your rifle was originally installed with a bolt-lock, which means you have to put the safety switch on fire before you can open the bolt. We are offering a conversion at a special price if you would like your firearm converted, so that you can open the bolt at anytime with the safety on safe. To view more details regarding this modification, go to:

Customer (TODD TALASKY)  
Dear Sir,

2/9/2005 4:36:44 PM

I contacted you earlier to ask if there was a recall on my rifle. I advised you that I thought I may have had a misfiring problem with it, years ago, when hunting with my older brother, who is in Iraq right now. You did not answer my question. I am asking you again, was there a recall? Attached is the serial number and model. Look in your records for my last email to you. Sincerely.....Todd C. Talasky, CW04, U.S. Coast Guard.
