Dear Martin,

Welcome to Remington Country!

We do not have a call-back on the Model 721. We are currently offering a Safety Modification Program for older models that have the bolt-lock mechanism. We have included our website link on the Safety Modification Program. Please click below for your convenience:

http://www.remington.com/Safety_Modification_Program/721_722.asp

Have a good day!

have 2 old 721's with split sear triggers.
if i have these repaired on the recall will the triggers be replaced or
will remington just remove the bolt lock, alot of people are saying the
split sear triggers are trouble???

thanks
