Dear Dear Mr. Huber,

Thank you for contacting Remington Country. Your Model 700 was produced in 1965. Your firearm has not been involved in a recall. Your rifle was originally installed with a bolt-lock, which means you have to put the safety switch on fire before you can open the bolt. We are offering a conversion at a special price if you would like your firearm converted, so that you can open the bolt at anytime with the safety on safe. To view more details regarding this modification, go to the Safety section of our site.

If you will complete the form located through the link below we will forward to you a copy of the original owner's manual.

[http://www.remington.com/library/downloads/owners\\_manuals.asp](http://www.remington.com/library/downloads/owners_manuals.asp)

You can request older obsolete model manuals in the "Request a Catalog" section of the site.

I just acquired the above model remington rifle, serial #176144. I would like to determine if this rifle had problems with its safety. In addition, I would like to acquire a user's manual or similar document for the rifle - is that possible?

Thanks,
