Dear Jon:

Thanks for visiting Remington Country!

Please contact our Parts Dept. at 1-800-243-9700 M-F 9-5pm EST. to request a box to ship your firearm back for modification. You should remove the scope before shipping.

We appreciate your support of Remington products!

Can you send me a box so that I can ship my rifle in for repair or can you tell me where to get a box to send it in? Also, should I remove my scope from rifle?
