

Can you give me an update on the status of this request? The test lab has broken 12 of these during drop testing and are in need of these as soon as possible to continue testing.

Thanks,

Vince

Subject: 710 SHORT INSERT

Gerald,

We are in the middle of T&P on the extruded receiver and are breaking inserts during the drop testing. Can you send us 15 short insert assemblies with the fire control assembled and set? We need these right away if possible to not interrupt testing.
