

## REMINGTON® MANAGED-RECOIL™ BUCKHAMMER® NOW AVAILABLE IN 20 GAUGE

**Madison, NC** It's been an accepted fact that shotgun slugs produce considerable recoil. Remington's recent introduction of the Managed-Recoil BuckHammer in 12ga established a completely new category within the world of high-performance shotgun slugs. Never before were the words comfort and performance used when describing shotgun slugs. For 2006, the newest member of the Remington pioneered Managed-Recoil family is now available in a 20ga, 2<sup>3</sup>/<sub>4</sub>" version for even milder recoil.

Remington Managed-Recoil BuckHammer is designed to significantly cut felt recoil by at least 40%. The dramatic reduction in recoil is accomplished by reducing the slug weight and load velocity while maintaining deadly on-game performance. Full-power BuckHammer 20ga loads deliver deer-dropping energy out to 125 yards while Managed-Recoil BuckHammer 20ga loads provide sufficient power out to 100 yards, well within normal whitetail hunting ranges. When used in conjunction with a fully rifled barrel, Remington Managed-Recoil BuckHammer delivers groups under 4" at 100 yards.

This specialized Remington slug system, with its uniquely engineered BuckHammer slug and attached, stabilizing wad, delivers outstanding accuracy, near 100% weight retention and controlled expansion to nearly 1 inch in diameter. These attributes combine to produce the most devastating lead slug available to hunters today.

Laboratory testing has proven the Remington BuckHammer slug system outperforms the competition in reliable expansion and accuracy when temperatures drop below just 30°F. Competitive slug sabots have been proven to fracture and come apart in freezing temperatures, totally destroying accuracy. The Remington BuckHammer's attached wad stays fully intact and maintains accuracy in temperatures as cold as -20°F. **What's the temperature in your area during deer season?**

Now, hunters of all ages can actually enjoy the necessary ritual of those pre-hunt practice sessions. Remington Managed-Recoil BuckHammer will build confidence on the range and still deliver devastating performance when it really counts!

Remington Managed-Recoil ammunition delivers - **Lower Recoil-Greater Confidence™!**

Offerings for 2006 are as follows:

### **Nitro Turkey Magnum Loads - Buffered**

	Gauge	Shell Length	Payload	Velocity	Muzzle Energy
	12 ga.	2 <sup>3</sup> / <sub>4</sub> "	1 <sup>1</sup> / <sub>8</sub> oz.	1350 fps	2000 ft.-lbs.
<b>New</b>	<b>20 ga.</b>	<b>2 <sup>3</sup>/<sub>4</sub>"</b>	<b>7/8 oz.</b>	<b>1275 fps</b>	<b>1379 ft.-lbs.</b>
