Subject: Proposed box-end label and packing list 25657

Questions - NPP states that the receiver and barrel are Stainless - Blast Finish - Parkenized. Not sure we can do this?

Until we started the SPS Stainless, we used a Glass Bead Finish on Stainless offerings - Do we want a Blast finish or a Glass Bead Finish?

If Blast Finish - what kind of finish on the Trigger Guard and Firing Pin assembly? Current 700 SPS stainless has a Satin Firing Pin Assembly.

25657

MODEL 700.TM STAINLESS LTR  
BOLT ACTION CENTERFIRE RIFLE  
20" FLUTED BBL .308 WIN
