

SUPERIOR HANDGUN TRAINING AMMUNITION

Handgun Training Ammunition That Duplicates Duty Loads.

UMC® Leadless Handgun Ammo provides cost-effective training rounds with lead-free primers that duplicate the sensitivity and ballistics of standard lead-base primers.

- **Flat Nose Enclosed-Base Bullet** prevents the hot expanding propellant gas from vaporizing lead from the bullet's base, eliminating exposure to lead at the shooter's position.
- **Cleaner Shooting in All Range Situations.**

- **Standard Bullet Weights and Identical Ballistics** duplicate the performance of duty loads.
- **Available in 6 LE Handgun Calibers.**
