after-market manufacturer or distributor, such as:

www.brownells.com
www.unclemikes.com

OR

We do not offer sling attachments or kits for this model. A possible after-market supplier for such a product follows.

www.brownells.com

accuracy
Thank you for contacting Remington Country. We do not offer a guaranteed MOA on our production rifles. The Model 700 is famous for it's "out of the box accuracy". The 22-250 is an excellent choice for a flat shooting cartridge.

The warranty on your firearm is 2 years from the date of original purchase. If you have any problems with the rifle you can forward it to a Remington Authorized Repair Center or the factory for inspection.

Case bulge using .17 HMR
We apologize for the inconvenience. The .17 HMR case design generates a high pressure and it will cause a bulge in the back of the case with any models of this caliber at this time.

Law Enforcement firearms
Thank you for your interest in Remington firearms. We ask that Remington Law Enforcement Distributors sell the Law Enforcement models to law enforcement and government agencies. It is not illegal for civilians to own most of them. We want to ensure that we are meeting their needs for the tactical models first. You may find some dealers will sell them to civilians if they have a good supply.
