Subject: RE: 710 Receiver Insert Test

Not sure what the test involves, I will do everything possible to have returnable and sellable guns at the end of the test. Also I have some gun right now that could be returned. I have 7- 30.06 rifles that were sent for the first safety detent test that was never done and I have 6- 30.06 & 6- 270 rifles that were not shot but were drop tested (one with a stripped receiver take-down screw hole).

Phillip

Phillip,

Charge account 8230150 Cost Center 28200. When can we expect the guns back? Also can we expect these to be guns that can be sold to customers (i.e. low # of round with no destructive tests)? We are in a backorder inventory position with 710s.

If you need any additional information, please let me know

Thanks,

Danny Chamblee
