**Subject:** Istvan Berczi, DVM, PhD. Manitoba, Canada, M700 rifle repair. RE00067527 (resolved)

John,

David Wainman at Ilion called me Friday and told me that he was finally given the release to ship the repair back to Canada. If it hasn't already been shipped, I'm certain that it is being shipped this morning.

To anyone who can help me,

I was told to obtain an export license in August for Mr. Berczi's rifle RE00067527. Mr. Berczi wanted the repair done and paid by VISA. I have since been in communication with Mr. Berczi and Gene's gun repair since then. The export license was sent to David Wainman on October 10. The gun is still sitting in shipping because it is on 'invoice hold'. Can someone release this so it can be shipped.
