Subject: SAFETY MOD. PROGRAM

FYI

(REMINDER)

THIS GUN IS NOT INCLUDED IN THE SAFETY MOD.

Remington Model 725 rifles were manufactured from 1957 until 1962. Model 725 rifles have a three-position safety, which permits those rifles to be unloaded with the safety in the "mid" position. Model 725 rifles are not included in the safety modification program. Nevertheless, special care must always be taken during the loading and unloading process of this and any firearm. Keep the safety in the "S" or "On Safe " position at all times until you are ready to shoot. Always keep the muzzle pointed in a safe direction. Always unload your rifle when not actually in use. Every firearm should be unloaded as soon as you are finished shooting – before taking it into your car, camp or house. Remington wants you to enjoy the shooting sports - safely!

Thank you

Jessica Earles
