Subject: 700 Fire Control issues - Light, Heavy, Creep, Misaligned pin holes

When: Thursday, January 05, 2006 11:00 AM-12:00 PM (GMT-05:00) Eastern Time (US & Canada).
Where: Jeff McGlory's old office

~~*~*~*~*~*~*~*

Folks,

I know it is short notice, but can we meet at 11:00am in Jeff's old office to discuss the issue surrounding the 700 fire controls. We are still seeing a high fall out for light and heavy pulls, creep, dead safes, and pin alignment.

Thanks

Jerry
