

Bob

Can you get Jack a listing of the gallery reject codes?

Thanks

Bob

Bob,

Do we have a computerized list of gallery malfunctions? If so, could I have one sent to myself Tom and Tony

I don't understand just what magazine related issues that the gallery is having. (MAH & MRH) I would guess that they are magazine assembles hard & magazine removes hard. If I'm correct then the assemblers are putting a magazine latch in that is too high.
