Subject: M/710 DAT Components

Joe,  
Per our discussion yesterday, the following is a list of 710 components that we would like to have DAT samples made by your vendors. Please proceed with procurement of these components. As we discussed, you purchase a minimum quantity of 150 pcs. of each component. If you are not able to supply a component please let me know asap so that I can make arrangements for prototypes through alternate sources.  
Thanks  
Mike
