

Keeney, Mike

To: Mead, Joseph P.; Santillo, Michael R.
Cc: Diaz, Danny
Subject: M/710 Drawing Package

Joe/Mike,

I have shipped an up to date drawing package and two partslists, overnite to Joe's attention. Partslists are identical, one has red and black checkmarks by the drawing numbers. As marked, a red check mark indicates the drawing is included in the package, a black check mark indicates an add used component. A part name without a drawing number indicates the part has not be completely modeled and/or detailed. The material specifications are recommendations, to be reviewed based on vendor recommendations as presented. The receiver and bolt body drawings do not have material specifications, please request vendor recommendations based on standard seamless tubing free machining carbon steel materials.
