Test Lab Work Request Form Rev.3 -20 April, 2000

Date Submitted: 12-19-02	Tracking #: TLW 1075
Project # : 241359	Engineer: B. Howard
Test Objective: EET test of steel	M710 CA DOJ bolt plug.
Test Description:	
1. Check headspace.	
2. Shoot 200 rounds each on and .30-06 calibers.	two guns using heaviest grain weight bullet for .270
3. Visually inspect bolt plug	for signs of excessive wear, cracking, or movement of st 10 rounds – and every 25 rounds thereafter.
4. Check and record headspa	0000007 Y0000007 .60 *
-	report results. Have Metallurgist send short
statement of acceptance or	11.40.000.000.000.000.000.000.000.000.00
 Check with Brad Howard Drop test each gun accord least abusive test and then 	for confirmation before proceeding to steps 7 & 8. ing to standard SAAMI guidelines starting with the progressing to the most abusive test. fire one sample with intentional overload to benetrations – if any.
6. Check with Brad Howard 7. Drop test each gun accord least abusive test and then 8. Intentional overload test- determine witness paper p 9. Return both samples to Br	for confirmation before proceeding to steps 7 & 8. ling to standard SAAMI guidelines starting with the progressing to the most abusive test. fire one sample with intentional overload to benetrations – if any. rad Howard. Test Results Required:
 6. Check with Brad Howard 7. Drop test each gun accord least abusive test and then 8. Intentional overload test-determine witness paper p 9. Return both samples to Br 	for confirmation before proceeding to steps 7 & 8. ing to standard SAAMI guidelines starting with the progressing to the most abusive test. fire one sample with intentional overload to penetrations – if any. rad Howard.
6. Check with Brad Howard 7. Drop test each gun accord least abusive test and then 8. Intentional overload test- determine witness paper p 9. Return both samples to Br	for confirmation before proceeding to steps 7 & 8. ling to standard SAAMI guidelines starting with the progressing to the most abusive test. fire one sample with intentional overload to benetrations – if any. rad Howard. Test Results Required:
6. Check with Brad Howard 7. Drop test each gun accord least abusive test and then 8. Intentional overload test- determine witness paper p 9. Return both samples to Br Resource Usage: Manpower Requirements—	for confirmation before proceeding to steps 7 & 8. ing to standard SAAMI guidelines starting with the progressing to the most abusive test. fire one sample with intentional overload to benetrations – if any. rad Howard. Test Results Required: Formal Report: n Data Only: yes Requested Completion Date: 1-17-03
6. Check with Brad Howard 7. Drop test each gun accord least abusive test and then 8. Intentional overload test- determine witness paper p 9. Return both samples to Br Resource Usage: Manpower Requirements — Facility Requirements — Required Materials/Parts/Equip	for confirmation before proceeding to steps 7 & 8. ling to standard SAAMI guidelines starting with the progressing to the most abusive test. fire one sample with intentional overload to benetrations – if any. rad Howard. Test Results Required: Formal Report: n Data Only: yes Requested Completion Date: 1-17-03 oment (include quantities):
6. Check with Brad Howard 7. Drop test each gun accord least abusive test and then 8. Intentional overload test- determine witness paper p 9. Return both samples to Br Resource Usage: Manpower Requirements — Facility Requirements — Required Materials/Parts/Equip Test Parts Availability Date: 1-1	for confirmation before proceeding to steps 7 & 8. ing to standard SAAMI guidelines starting with the progressing to the most abusive test. fire one sample with intentional overload to benetrations – if any. rad Howard. Test Results Required: Formal Report: n Data Only: yes Requested Completion Date: 1-17-03 oment (include quantities):
