315 WEST RING ROAD
ELIZABETHTOWN, KY 42701

INTRODUCTION

The Model 710, Centerfire Rifle is a new product line for the Remington Arms Company.

This report will review and summarize the results of various Trial & Pilot Tests (T&P) conducted during the time period November 2000 and December 2000 at the Remington Arms Company, Inc., Research & Development Technical Center located in Elizabethtown, KY.

Due to the extensive nature of the testing involving this product this report will consist of two parts. Part A (this document) presents a brief explanation of each of the individual tests that were a part of the overall Trial & Pilot test plan, along with a brief review of the results for that particular test. Part B consists of a large binder and contains the raw data for the T&P as well as the individual test reports associated with the test program. It is more extensive in both volume and detail and is intended to give the reader an in-depth look at each of those same tests if desired. Part B also provides additional details such as the flow chart for the T&P test plan, copies of the individual test requests and any supplementary reports or data that was generated during or after the completion of a particular test.

Part B is divided into three parts. B.1 contains the information pertinent to the 1st Trial & Pilot effort (series "A"), B.2 contains the information pertinent to the 2nd Trial & Pilot (series "B") and B.3 the 3rd and final Trial & Pilot series (series "C") of test. Part B also contains copies of supplementary tests that were not scheduled as part of the original test plan.

For reference and consistency, the same section numbering scheme is used in both Part A and in Parts B.1 – B.3.
