Subject: System Operation/Bench Check

Phillip,

Please start the 10 gun test per the attached. The System Operation/Bench Check has been completed. Also do not do the 500 round endurance or the Bolt Stop Function Check for now. Would like to have Jody do the Bolt Lift/Closing measurements since he measured last time.

T & P Activity:

- * Remind everyone when we do receive T & P guns that they are not to be unboxed until Marketing is here.
- * Prepare everyone that we'll need to work this weekend as far as we know.\

Scott
