Subject: triggers and sear safety cams

I will be out on business 11/7 to 11/9.

Joe

I am supposed to receive 30 triggers and 30 sear safety cams from UGT on Monday 11/7/05. Please have the finish checked post and pre plate. I also need the radius of the sear safety cam reviewed. Since you may not be here who can do this for us? We will need to have successfully completed all of this post plate prior to scheduling the run off.

Baltz

Please provide us with the gage readings per part.

Jim

Please intercept this package for me because I will be out of town.

Glen

These parts are being ground with a new grinding wheel. Please evaluate plate adhesion.

Thank you

James F. Doolittle
