Dear Bob,

Thank you for your inquiry. The model 710 comes with the ISS keys and an  
owners manual in the box and that is all.

what I would like to know is what comes with the 710 model. I have a bolt  
lock tool and one alum key that only fits the screw behind the trigger  
gard, but it dose not fit the screw in front of the magazine, and it is an  
odd size, could you please tell me if that is the set up or not. The rifle  
came from Raytrade in sydney Australia. thak you regards Bob Stormont
