Dear Sir,

We do not recommend adjusting the trigger on our firearms. It will void any warranty on your rifle. If you are having a problem with your trigger, we suggest sending your firearm in to our factory for adjustment.

You can send your firearm to:

Remington Arms Co.
Attn: Arms Services
14 Hoeftler Ave
Ilion, NY 13357

Customer (Robert Harmon)

how do i adjust the trigger for creep and overtravel. The weight of pull is fine. But there is considerable take up in the pull. I have several other Remington rifles and I've never had this type of problem and I feel that, with the proper technical support I can handle this adjustment myself.
