You have two choices:

1. You should have the firearm checked out by a Remington Authorized Repair Center qualified gunsmith.

2. Or you could send it back to us at the factory and we would be glad to look at it for you:

Remington Arms Co., Inc.
Attn: Arms Service Division - TPA
14 Hoefler Avenue
Ilion, NY 13357

Please fill out the factory repair form from our web site and include it with the firearms when you send it back to us.

NOTE: Remind other gun owners that they should have their guns checked out periodically by a qualified gunsmith.

NOTE: An obsolete gun may not be repairable.
