Dear Mr. Abel,

You will need to take your firearm to a Remington Authorized Repair Center if you wish to have your firearm changed from a bolt lock safety to a non bolt lock safety.

You can locate your nearest repair center by visiting the Repair Information Center in our Support Section and selecting your model and state:

<http://www.remington.com/Support/repairsvc/Modelselection.asp>

I saw your safety notice can this firearm be changed so you may open the bolt with the safety on. It has a bolt lock feature but it can be open with resistance. If so send me a listing of parts and prices to do the work.

Thank you,
Glenn Abel
