Dear Sir,

We regret you are experiencing a problem with your firearm. We do not offer a 3 position safety. However if you are concerned with the safe operation of your firearm, we suggest taking your firearm to a Remington Authorized Repair Center for evaluation.

You can locate your nearest repair center by visiting the Repair Information Center in our Support Section and selecting your model and state:

I have a Remington Model 722, .308. The safety is unsafe. Is it possible to have a three position safety installed on this old of a model? If not, do you have any suggestions on other options to replace safety?
