Dear Mr. Gregory,  
Thank you for your inquiry. However we would need to know the serial  
number in order to determine if there is a call back on your firearm. You  
can contact our Customer Service Department at 1-800-243-9700 and we can  
properly answer your inquiry.

i have a pre 1982 700 and i need to know the steps to get it repaired.i  
understand there is a recall on the safety mechanism thanks for the help.i  
own about 25 remingtons and this the only one that needs work.
