Dear Ms. Bolling,  
Thank you for your inquiry. Please check with your local BATF for shipping regulations. You can find complete shipping instructions on the Safety Modification Program section of our website or through the link below:

[http://www.remington.com/Safety\\_Modification\\_Program/700\\_safety.htm](http://www.remington.com/Safety_Modification_Program/700_safety.htm)

The safe use and performance of your firearm depends on correct assembly and routine maintenance, as well as adherence to the "10 Commandments of Firearm Safety." <http://www.remington.com/support/10comm.htm> It is critical that you familiarize yourself with the information in both the owners manual and safety booklet. Whether you are a veteran shooter with a collection of Remington firearms, or a first time shooter, take the time to review this important literature and be certain that you are practicing firearm safety!

If you need a replacement copy of your Remington owners manual, or safety booklet, you can download or request a copy from the Support section of our web-site.

Owners manuals - <http://www.remington.com/whatsnew/readroom.htm>

Safety Booklet - <http://www.remington.com/pdfs/sftybklt.pdf>

You may also obtain a copy by calling toll free 1-800-243-9700, and pressing option 1.

I own a 25-06 with the bolt-lock mechanism. We are more than willing to send it back for the upgrade. My question to you is, How will we get it back.

Will you ship it directly to us or does it have to be sent to a licensed dealer? Please furnish us with the specifics on this. Thank you. Marla R. Bolling
