Dear Mr. Turnbull,

According to the serial number provided, there is not a recall on your Model 700 rifle. We do have a Safety Modification Program which is voluntary but this is not a recall. This program is designed to remind people of the existence of the bolt-lock feature and to offer customers the opportunity to modernize their product. You can find more information regarding this program on the front page of our website or through the link below:

[http://www.remington.com/safety\\_modification\\_program/remington\\_safety.htm](http://www.remington.com/safety_modification_program/remington_safety.htm)

The safe use and performance of your firearm depends on correct assembly and routine maintenance, as well as adherence to the "10 Commandments of Firearm Safety." <http://www.remington.com/support/10comm.htm> It is critical that you familiarize yourself with the information in both the owners manual and safety booklet. Whether you are a veteran shooter with a collection of Remington firearms, or a first time shooter, take the time to review this important literature and be certain that you are practicing firearm safety!

If you need a replacement copy of your Remington owners manual, or safety booklet, you can download or request a copy from the Support section of our web-site.

Owners manuals - <http://www.remington.com/whatsnew/readroom.htm>

Safety Booklet - <http://www.remington.com/pdfs/sftybklt.pdf>

You may also obtain a copy by calling toll free 1-800-243-9700, and pressing option 1.
