Dear Mr. Kubica,
Thank you for your inquiry. We have a Safety Modification Program on certain model bolt action rifles. This is a voluntary program, it is not a recall. This is designed to remind people of the existence of the bolt-lock feature and to offer customers the opportunity to modernize their products.

You can read more information regarding our firearms and our Safety Modification program through the front page of our website or the link below:

http://www.remington.com/safety_modification_program/remington_safety.htm

The safe use and performance of your firearm depends on correct assembly and routine maintenance, as well as adherence to the "10 Commandments of Firearm Safety." <http://www.remington.com/support/10comm.htm> It is critical that you familiarize yourself with the information in both the owners manual and safety booklet. Whether you are a veteran shooter with a collection of Remington firearms, or a first time shooter, take the time to review this important literature and be certain that you are practicing firearm safety!

If you have any questions, please feel free to contact us at 1-800-243-9700 or 1-877-387-6691.

TV notice that ALL bolt action center fire rifles bought before 1982 should be returned for free replacement of potentially defective action that causes unexpected discharge of the weapon. Both my son and I own models listed above (mine purchased for me by my Dad, now deceased, while he was an employee at Rem Arms, Ilion). May we deliver guns to Ilion (nearby) for repair and pickup? Please advise. Thank you. George Kubica
