You may find information on the modification program by clicking on the link below:

http://www.remington.com/Safety\_Modification\_Program/remington\_safety.htm

You can locate your nearest repair center by visiting the Repair Information Center in our Support Section and Selecting your model and state:

http://www.remington.com/Support/repairsvc/ModelSelection.asp

Customer (George Flynn)

Please provide info for having the safety bolt lock feature modified on my model 700. I understand that the safety will be modified to enable operating the bolt without putting the weapon in fire mode. Can the repairs be done at a repair shop listed on the Remington website or does the weapon have to be returned to the factory. What do I need to do to get the weapon modified? Thank you for your assistance.
