Dear Mr. Beagles,

We apologize for the delay in response. We do not have a serial number range to give out but if you will contact our Consumer Service Department at 1-800-243-9700 or 1-877-387-6691, our representatives will walk you through the procedure to determine if you or your children have a bolt lock safety on your firearms. According to the serial number provided, your firearm was manufactured in or around 1975.

Is this rifle within the serial number range that the saftey should be checked by an authorized service shop? Would you please tell me what that range of numbers is so that I can pass it on to one of my kids who also owns a model 700.

Thank you,

Philip H. Beagles
