Dear Mr. Rodgers,
Thank you for taking advantage of our Safety Modification Program. You can have this performed by your local Remington Authorized Repair Center or our factory.

You can locate your nearest repair center by visiting the Repair Information Center in our Support Section and selecting your model and state:

this Remington has the bolt lock feature. I am interested in having Remington alter the mechanism to be able to open the bolt with the safety in the on or safe position. How can I have this work done? Can an authorized dealer near me do this?
