someone told me that my 30.06 has a recall on it it is a mod.700 \ddagger bought it ...

Discussion Thread

Response (Laura) 5/16/2002 3:11:52 PM Thank you for your inquiry. We do have a Safety Modification Program on certain bolt action rifles. This is a voluntary program, it is not a recall. This is designed to remind people of the existence of the bolt-lock feature and to offer customers the opportunity to modernize their products. We strongly recommend that you take advantage of this offer.

You can read more information regarding our firearms and our Safety Modification program through the front page of our website or the link below:

http://www.remington.com/safety_modification_program/remington_safety.htm

The safe use and performance of your firearm depends on correct assembly and routine maintenance, as well as adherence to the "10 Commandments of Firearm Safety." http://www.remington.com/support/10comm.htm It is critical that you familiarize yourself with the information in both the owners manual and safety booklet. Whether you are a veteran shooter with a collection of Remington firearms, or a first time shooter, take the time to review this important literature and be certain that you are practicing firearm safety!

If you have any questions, please feel free to contact us at 1-800-243-9700 or 1-877-387-6691.

Customer (Robert Doutre) 5/16/2002 11:04:00 AM someone told me that my 30.06 has a recall on it it is a mod.700 i bought it around 1972, he said that something was wrong with the bolt. Is there any truth to this? I'm sorry that I don't have ther numbers off the gun but I could get them for you if need be.thanks Rob Doutre 1 517 424 1454
