Dear Mr. DeAnda,
Thank you for your inquiry. We do have a Safety Modification Program on certain bolt action rifles including older Model 700 rifles. This is a voluntary program, it is not a recall. This is designed to remind people of the existence of the bolt-lock feature and to offer customers the opportunity to modernize their products. We strongly recommend that you take advantage of this offer.

You can read more information regarding our firearms and our Safety Modification program through the front page of our website or the link below:

http://www.remington.com/safety_modification_program/remington_safety.htm

You can find more information regarding law enforcement firearms at www.remingtonle.com.

Hello,
My name is Robert De Anda, and I actually have two questions. The first one, I heard that there was a recall on model 700's and was wondering if the one I have has fallen into that recall category it is a 7mm Rem. Mag. Model 700 serial number 6866670.
The second is, if you could please send me any information telling me about the tactical weapons systems that you sell.
Thank you very much for your help and time.
