Dear Mr. Eastlick,

Thank you for your inquiry. There is not a recall on Pre 1982 Bolt Locks. We are offering a Safety Modification Program on certain bolt action rifles including the Model 721. This is designed to remind people of the existence of the bolt-lock feature and to offer customers the opportunity to modernize their product. You can view all of the information regarding this program through the front page of our website or through the link below:
