Dear Mr. Bauer,  
We apologize for the inconvenience. We are sending you the missing stock swivel screws. These should arrive in the next 2 weeks. Thank you for your understanding.

To Whom It May Concern:

We recently had our rifle repaired. Remington received it on 7/16/02. We had the bolt lock safety modification repair done on it. We received it back in the mail yesterday on 7/31/02. We noticed that the factory screw in swivel bases were not on the gun. We had taken off the sling, but left the swivels. Is it possible to get those back?
