Dear Mr. Hunt,

Thank you for your inquiry. According to the information provided, this firearm was manufactured in or around 1963. We want to make you aware of a Safety Modification Program that we are having on these firearms. You can find all the details regarding this program through the front page of our website at www.remington.com.

As with any used firearm, we would strongly recommend you have the firearm serviced and evaluated by a competent gunsmith for function and safety. We feel it is imperative you know the exact condition of your firearm prior to shooting. Please also read our "Guide to Buying a Used Gun" found through the link below:

<http://www.remington.com/magazine/preview/rc007007.asp>

If you are not aware of a gunsmith in your area, please feel free to contact one of our RARC's found in the Support/Repair section of our website or the following link:

<http://www.remington.com/repairsvc/modelselection.asp>

If you will complete the form located in the What's New/Reading Room section of our website, we will forward to you a copy of the original owner's manual.

<http://www.remington.com/whatsnew/readroom.htm>

You can also find owner's manuals for some of our current models on-line in our Reading Room in the "What's New" Section.

I purchased a used Remington Model 700 BDL (Serial # 55495) in 1992. Can you tell me the production date for this rifle? And if there are any concerns with regard to the use any new production ammunition with this rifle.

Thanks for you help,

C.Hunt

{Additional info: Barrel stamped with "65" where barrel meets receiver. Barrel stamped with "7MM REM MAG." Barrel stamped with "Stainless Steel."}
