Dear Steven,

Thank you for your inquiry. According to the information provided, this firearm was manufactured in or around 1974. We want to make you aware of a Safety Modification Program that we are having on these firearms. You can view the details of this program thorough the front page of our website or through the link below:

http://www.remington.com/Safety_Modification_Program/remington_safety.htm

As with any used firearm, we would strongly recommend you have the firearm serviced and evaluated by a competent gunsmith for function and safety. We feel it is imperative you know the exact condition of your firearm prior to shooting. Please also read our "Guide to Buying a Used Gun" found through the link below:

<http://www.remington.com/magazine/preview/rc007007.asp>

If you are not aware of a gunsmith in your area, please feel free to contact one of our RARC's found in the Support/Repair section of our website or the following link:

<http://www.remington.com/repairsvc/modelselection.asp>

If you will complete the form located in the What's New/Reading Room section of our website, we will forward to you a copy of the original owner's manual.

<http://www.remington.com/whatsnew/readroom.htm>

You can also find owner's manuals for some of our current models on-line in our Reading Room in the "What's New" Section.

I am thinking of purchasing a used Remington Model 700 BDL S/N 6737052 from a friend.
It is a bolt action .243 caliber.

Do you know the date of manufacture?

Thanks for your help.

Steven
