I recently leant my rifle to a neighbor who took it to be sighted in an the guy at the rifle range said that there had been a recall on this model rifle some 20-30 yrs ago. I have had this gun since I was 12-13 yrs old an am not aware any recall. Supposedly has something to do with the safety or firing mechanism if so would you let me know what the problem is an what to do about getting it fixed or whatever needs to be done to it. Thanks
Roy Howse
